T. S. Littlefield, Gen. Man.

Begin Laying Track Tomorrow.

The Electric Railway Company will begin laying track for the railroad tomorrow. The work was to have commenced yesterday morning, but because there was not a clear understanding between the city and the company as to the out for the track in the streets, the work was postponed until a meeting of the city council and General Warner and his people could be held. This meeting will occur sometime today and the matter will be settled. Tomorrow morning Mr. J. A. Kidd will put a large force of hands to work making the cut for the track and putting down the cross-ties and rails.

The last piece of the dynamo for the Chestate dam will reach there today, and the work of installing the dynamo will commence. It is expected that it will be in place in working order in thirty days. The piece which was taken from the main body of the dynamo left the city early yesterday morning and will be at the dam site by this afternoon. Today the wiring force is about eight miles from the city and in about a week's time will have the wires strung from the city to the dam. It can be safely counted on, therefore, that by the first day of December the lights will be turned on in Gainesville.

All the material for laying the track, i. e., enough to start on, is already here. Three cars of rails have arrived, and that is enough to lay the track from the Southern depot to the public square.—Gainesville News of last week.

Impromptu Murderers.

The man who kills another is apt to shoot beyond his victim and hit the heart of a mother, a wife, a sister, a dependent child or somebody who loved the slain even as the slayer loves or is beloved by those who are dear to him. What a shadow a man must bring upon himself when he slays a husband and father, the family breadwinner, and thus bows an innocent woman in bitter grief and takes from helpless childhood the natural protector of which it ever stands in need. Not for all the gold in the world nor for all its honors could a brave-minded, true-hearted man consent to do such a thing as this. What unspeakable folly it is for a man to permit brute anger, aroused over a difference of opinion, to lead him into murder. It is more than folly. It is the entrance to hell. The criminal habit or practice of pistol carrying may be traced most murders. The man who makes a practice of going about secretly armed falls short of the measure of a good citizen. He is not only ready to defy the law; he has already violated it.—Nashville American.

Work Necessary.

This country is not held up as a land of Paradise, nor is it exactly a "land flowing with milk and honey." These commodities are here, but one must work for them. A man cannot sit down in idleness and see silver dollars rain into his lap. He must hustle here the same as elsewhere. But the man of energy and pluck who is brave enough to "tickle the earth with his hoe" may reasonably expect a liberal reward for his industry. That's the secret of the success.—Bartow Courier-Informant.

Dr. R. H. Hightower, who lives two miles from Dublin, Ga., has raised this year 500 bushels of ground peas in one acre of land.

Pensions.

What a wonderfully depressing effect the prospect of a pension based upon military service seems to have upon one's moral nature. The evils associated with the million pensioners upon the United States government incalculable, and cannot be traced through all their ramifications. But they are apparent from the moment that a bill is introduced into Congress removing, after thirty-five years and more, the charge of desertion from a man to the granting of the monthly stipend to a grave's edge widow of a veteran. They are not confined, though, to the pensioners upon the national government. With laudable intent a number of Southern states have sought to ease through pensions the declining years of veterans of the Confederate armies. The aim has been widowed, and one effect has been noted in the discovery a state auditor in an examination of new pension applications that several women who applied for pensions as widows of soldiers had sworn they had been married to the soldiers prior to April 1, 1865, such a fact being requisite a pension, but they also had given their ages as from forty-four to fifty years. The women who gave their ages as forty-four years could have been only seven years of age when they were married. Either they were older than they claimed to be, or had not been married before April 1, 1865, and either case they demonstrated the demoralization of pension grabbing.—Ex

The Jordan Bill.

The proposed bill of Hon. Harvie Jordan to establish an Agricultural High School at Griffin would simply put an extra expense on the state. In the first place it is not needed, for everything it could possibly accomplish can be accomplished in this city by the efforts of the State College of Agriculture and Mechanic Arts. In the next place to take \$40,000 a year from the fees on fertilizers simply decreases the common school fund by that much. It might be all right if such an institution were needed, but the State College, already well established, can do all that is necessary in this line.—Athens Tribune.

The Tribune is right, the state needs no additional school that will interfere with the valuable work being done in the state College of Agriculture and Mechanic Arts, and the money appropriated for this institution is well spent.—Americus Times Recorder.

The News heartily concurs in the above. State does not need to make any such appropriation merely to satisfy the desires of a few politicians and constituents of that section. The thing needed most is to make larger appropriations for the public schools and colleges already established and for the improvement of same. No, let us not have any more at present, but help to advance the interest to those that we already have.—Vienna News.

The bill of Mr. West, of Lowndes, to establish and maintain a uniform system of text-books for the state has our heartiest endorsement. It is unfortunate for the state that the new State School Commissioner does not go into office at this time, so that his position on the question could come squarely before the people. Commissioner Glenn is known to be greatly opposed to the measure. As Mr. West comes from the home county of the new Commissioner, it is to be presumed that he reflects the views of Mr. Merritt. Cobb County Courier.

This Is No joke.

If you took your little tooter and then lay aside your little horn, there's not a soul in ten short days will know that you were born. The man who gathers pumpkins is the man who plows all day and the man who keeps it humping is the one who makes it pay. The man who advertises with a short, sudden jerk, is the man who blames the editor because it didn't work. The man who gets the business takes a long and steady pull, and keeps the local paper from year to year quite full. He plans his advertising in a careful thoughtful way and keeps forever at it until he makes it pay. He has faith in all the future, can withstand a sudden shock, and like the man of Scripture has his business on a rock.—Ex.

Helped Him Out.

An amusing story is told of a widow who kept a small grocer's shop and who counted among her lovers a local farmer who was as modest as he was big. "Here, Mr. —," she said to him one day as he was looking unutterable things at her over the counter, "you just tie that parcel up for me."

Whether it was native clumsiness or the embarrassing effects of concealed affection, the farmer bungled so much over the knot that the impatient widow exclaimed, "I know a man who can tie a knot much better than that."

"Who's that?" queried the innocent farmer.

"Why, the parson, of course," was the prompt and unexpected answer.

This was an opening which even the farmer was not stupid enough to lose, and a few weeks later the parson's services were in demand.—London Standard.

Duties of Teachers.

Only the sincere and honest and generous hearted should dare teach anything. The moment a man announces himself as a teacher in any department of life, he dictates the idea of a certain superiority. It should be his aim to live up to that idea. It is said of a man physically, that his constitution is only as strong as the weakest part of his body; it is said of a country that its civilization can only be estimated by its most uncivilized contingency. The same estimate must be made of character.—Ella Wheeler Wilson, in November Conkey's Home Journal.

Occasional Advertising.

One need not expect good returns from occasional advertising. An old farmer tried "now and then" feeling upon his favorite mare, and it was not long before the "critter" lay down and died. The river which "dries up" in summer is not regarded with any favor by navigators.

It is the intention of some of those who favor local taxation for public schools to try to pass a bill at the present session of the legislature providing that the districts in each county in the state be allowed to tax themselves for the support of the schools, to be left entirely to the districts. The county will have nothing to do with the system.

The terrors which lurk in high explosives are not unknown in Kansas, says the Kansas City Journal. At Leon the other day a hot sweet potato exploded, seriously injuring a woman who sat at the table.

Selling Out At Cost

Having decided to sell out my entire stock of goods by the first of January next, I have put the prices of all articles, consisting of everything kept in a general mercantile establishment, at and below cost. If you want sure enough bargains now is your chance. Those owing me, either by note or account, will please come forward and settle at once. J. T. Mizra, Anraria, Ga.

THE NUGGET.

DAHLONEGA, OCTOBER 6, 1902.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

A colored female street preacher visited Gainesville last week.

The Rome dispensary, which commenced the first of last April, has declared a profit of \$2,000.

Judson Burt, a son of Rev. D. J. Burt of Dawsonville, was killed by a train in Atlanta one night last week.

During the first week of the legislature 85 bills were introduced in the house, of which about 60 are local bills.

Col. L. A. Roam, of Fairburn, Ga., has been appointed to succeed Judge John S. Candler of the Stone Mountain Circuit.

It cost a little boy in Atlanta last week \$1.75 for taking two duck eggs at Grant's Park and giving them to a little girl.

Why is a newspaper like a toothbrush? Because everybody should have one of his own and not be borrowing his neighbors.

The work on the Gainesville street car track is moving right along. Six cars have been ordered for the line and two have been shipped.

Mr. J. H. Montgomery, president of the Pacolet Cotton mills at Gainesville, fell sixteen feet while inspecting the mill last Friday and was killed.

Senator McClure has been appointed on five important committees, to-wit: Mining, penitentiary, public library, pensions and Western and Atlantic railroad.

After disposing of 325 criminal cases in the U. S. Court in Atlanta since the 6th of October it adjourned last Saturday until December 8th when civil cases will be heard.

The Acworth Post has changed hands by Bro. Webb going out and Bro. John M. McDowell, coming in. He is the former editor of the Cherokee advance and will make the Post sparkle with bright news.

W. W. Sowers, who claimed to be from Floyd county, Va., was found dead in Cartecay river one day last week. He had been on a protracted spree and it was supposed that he was accidentally drowned.

Hon. G. D. Bruce, Lumpkin's representative, has been appointed on the following committees in the house of representatives, to-wit: Appropriation, Corporation, Georgia State Sanitarium and Special Judiciary.

Hon. Carl Wellborn of Union, is on the right track. He has introduced a bill allowing no person owning more than \$1,000 worth of property or earning more than \$900 per year a pension in the state of Georgia.

A boy was asked if he ever prayed in church. "Oh I always say a prayer like the rest do, just before the sermon begins. "Indeed," responded the astonished guest. "What do you say?" "Now I lay me down to sleep."

The same old bill to remove the agricultural department of the State University to Griffin has found its way into the legislature. If this was done it wouldn't be long till some other place would want it. So it is best for it to remain where it is.

With the last term of Lumpkin Superior court ended Col. W. A. Charters' four years as solicitor-general of this circuit, who has made a good and successful prosecuting officer, as the following figures will show in reference to the per cent of criminals convicted in each county, to-wit: Hall 84 per cent, Dawson 67, Rabun 75, Habersham 79, Towns 63 1-2, Union 67, White 78, Lumpkin 79. It will be seen that Hall stands head and Lumpkin next.

Atlanta is happy now. She is going to get a \$600,000 union passenger depot at last.

Beef is selling at 44 cents a pound in Berlin and other meats are proportionately high.

Aunt Carrie Nation knocked a young man down in Charleston the other day for blowing the smoke of a cigarette in her face. She did right.

Bud Ross government distillery was recently seized in Fannin county for irregularities. The seizure includes the distilling outfit, about a thousand dollars worth of hogs, cattle and liquor on hand.

Mr. Hall of Bibb wants to make it a crime for railroad companies to offer public officers free passes. If this passes no more legislators will ride on free passes and it will prevent many miles of pleasant and delightful travel by rail.

Last Saturday Mr. Grice of Pulkaski introduced a measure to provide for a separate system of schools for the white and colored races of Georgia, and to provide that the tax raised by the negroes in the state be used for negro schools, and that raised by white people be used for the white schools. This is a very important measure and ought to become a law.

The Congressional election here Tuesday was the smallest and quietest ever held in the county. The total vote was only 183 by districts as follows: Auraria 16, Crumby's 4, Cano Creek 6, Chestnut 4, Dahlonega 101, Davis 7, Hightower 7, Martin's Ford 9, Nimbler 11, Porter Springs 5, Shoal Creek 4, Yahoola 6. No election was held in the other districts. Mr. Tate had no opposition.

Mr. Underwood of White has introduced a bill to prescribe and limit the fees of solicitor generals for prosecuting in the courts of the state the felonies that were reduced to misdemeanors by the act of 1886. This is a good move. Very often the grand jury returns bills against parties under the head of felonies when the testimony does not justify it, and yet the defendants when convicted of misdemeanors have to pay the high "felony costs."

The following important resolution, adopted by the White County Board of education, should be carried out by school authorities in other counties. It reads as follows: That the Board will refuse to grant license in the future to any person who makes or sells liquor in any way, or to any person who drinks to excess. Be it further resolved that any teacher who is guilty of being under the influence of whiskey, upon being found guilty by the board for the first offense, he will not be allowed to teach in the county for one year, upon being found guilty the second time his license will be revoked.

Dr. Honnicutt, former assistant state commissioner of agriculture and a successful farmer, is deeply impressed by cornstalk possibilities, and is urging that due attention be given to them. He said on this subject recently: "There is one crop quite abundant on every farm. It is one of the very best foods we can raise. We refer to the cornstalk crop. After thorough investigation we find no good reason to take back or modify anything that we have said on the subject of shredding or making hay from cornstalks. The hay is as good as any we can make, and cattle do as well when fed upon it. Every man who has pulled fodder has made a great mistake. He has lost time and money and injured his corn. But it is not to late to use the stalks. The hay will be about as good without the fodder. You have only lost time and labor. If the stalks are cut and shredded the stalk and chuck will make good feed. On every farm there are tons of stalks. They have a money value and a food value."

W. O. London of White county, was acquitted here yesterday by Com. Baker, being charged with illicit distilling.

Gov. Terrell recently appointed 100 new colonels. Most of them are men of means but have very little experience in military matters.

Will Evans, who was sent to the penitentiary from Hall county in November 1900, seven years for killing young Merck in Gainesville, was pardoned this week by Gov. Terrell.

Elections were held last Tuesday in 42 states and the result is in favor of the republicans, as follows: Total number of congressmen 356. Republicans 196. Democrats 177. Doubtful 13.

There are more men in the present house of representatives who give farming as their occupation than that of any other vocation. According to the statistics collected of Messenger Penn, there are sixty members who are farmers, fifty-three lawyers, twenty merchants, fifteen doctors and ten editors. The remainder of the total membership is divided between capitalists and mechanics, says the Atlanta Constitution.

By reference to an official notice elsewhere it will be seen that the registration book of the city will open next Monday and remain open until the night of the 13th of December. There are three new councilmen to elect soon and it is getting time to begin to look up some council timber. The following councilmen term expire first of the year. Dr. Jones of the 1st Ward, Col. Lilly of the 2nd and Mr. T. F. Jackson of the 3rd.

Last Monday a woman from the country, after failing to get any "love draps" at J. F. Moore & Co's, soon found her way into the drug store. She was told by the clerk that they had none on hand and Dr. Jones would return in 20 minutes, but she said she couldn't wait. So as to accommodate the distressed female Charlie Jones and the clerk soon made her up ten cents worth and she left out in a fast walk towards her country home. It seems that this woman once had a lover but he has strayed off, not caring for her as he once did and she is going to make an effort to bring him in with "love draps," as good treatment and kind words have both failed. How she will manage it we do not know, unless she procures a squirt gun, and mounts a fast steed, runs him down and gives him a squirt of the "draps" on the fly. The matter will be watched with much interest.

Mrs. Tilda Findley has put in a claim against the city of \$80 for damages sustained by a fall in a gully some time ago. This matter came before the city last Monday evening and was referred to the street committee. Mrs. Price also presented a petition asking to close up the Lockhart road running through her land and move it lower down. This was also referred to the street committee with power to act.

The first number of the students paper, called The Tahlahnekan, will appear between the 15th and 20th of the present month. It will contain all the news of the different literary societies and colleges, and appear monthly; subscription price 50 cents per year. Those having charge of it are as follows: Editor in chief, N. W. Grant. Associate editors, Mr. J. R. Byers and Miss Sallie Gaillard. Business manager, Mr. W. F. Thomas. Local editor, Mr. J. R. Berry. Exchange editor, Miss Nellie Wallace. It will be printed at the NUGGET office.

Beautifully The School Grounds.

The Board of Education of Lumpkin county is anxious to have a committee of Young Ladies and School Girls appointed from every School District in the county to select suitable forest and ornamental shade trees and have the same set out at the various School houses in the county, at the proper seasons during the coming winter months. This matter should be in the hands of energetic committees who will see that the work is done. Young men and boys of each neighborhood will help to do the work. Names of young ladies and girls should be sent in to the Chairman of the Board at once. Those who may wish to learn all about tree planting and when and how to plant them can get little books of information FREE by writing to the "Youth's Companion, Boston, Mass." Where it can be done, the work will be augmented by the planting of flowers, shrubs and for ornamental purposes. These things will add much to the beauty of our new School houses.

W. P. PRICE, Sr., President Board of Education.

There are 77 prisoners in Fulton county jail charged with felony.

President Roosevelt went to Virginia on a turkey hunt last week but never got a shot. The Virginia turkeys are all afraid of such high officials.

THE NUGGET.

DAHLONEGA, OCTOBER 6, 1902.

Mountain cabbage sold at half a cent a pound this week.

We have just received a big lot of guns for sale or rent.
2t ANDERSON & JONES.

Beef cattle is cheap now but if farmers continue selling they will be scarce and high by Christmas.

Mr. W. B. Fry returned from Atlanta Thursday where he had been to have his little girl's eyes treated.

Miss Blanche Gurley returned from Gadsden, Ala., last Thursday where she has been visiting for a few weeks.

Buy some of those college and society letter heads at J. F. Moore & Co., at prices almost as cheap as the blank paper.

Smith & Bro. are now at their new stand, ready to sell goods as low if not lower than they can be had in Dahlonega.

The bird law was out last Friday and since that time the partridges have stood a poor chance to escape the many hunters.

Don't forget that we keep on hand a large assortment of blank paper and envelopes and are prepared to do your work upon short notice.

Don't ask us for any money for foreign missions. A certain person is stealing our office wood, and we are not able to keep up both ends of the line.

Boarders wanted by Mrs. Charlie M. McAfee, 25 Cycamore St., Gainesville, Ga. Persons from Dahlonega will find it a good place to stop at.

Not a single person who was convicted or entered a plea of guilty at the last term of Lumpkin Superior court, had to go to the chain gang. Mrs. Black was paid out last Thursday and the jail is once more empty.

Some times blockaders wear badges. It is a large patch in the back of their coats to close a hole which has been burned out by a red hot still, running from the revenue officers. One was in town the other day.

Another dynamo for the Chestate power plant is expected every day. So if one gets out of order the other will be ready there for use, and in two or three more weeks the lights will be thrown on the city of Gainesville.

There was a most happy and delightful reunion in Dahlonega the other day, and had a certain lady been present it might have been that some one else would have lost some teeth too. We will not give their names as they belong to the church.

Mr. Jess Castleberry of this place, was wedded to Miss Stinson, a daughter of Mr. Geo. Stinson, of White county, yesterday. And last night Mr. Hughes Anderson was married to Miss Bell, a daughter of Mrs. A. L. Winpy of Dahlonega.

A fellow who takes no paper went down to Gainesville the other day to lay in a supply of goods. He didn't know that there were merchants right here in Dahlonega selling goods at cost. He lost several days, and bargains right here at home, simply because he reads no paper.

We are glad to state that Capt. H. D. Ingersoll's health is improving so that he can get about much better than he has for months and we trust that he will live a long and happy life, for he is the greatest friend the poor people of Lumpkin county have ever had. Many a time we have seen him going to his office with two sticks when he was not able to be out, to help some poor distressed person, and when the shadows of the evening of life appears over this sympathetic, good hearted, clever gentleman he will be greatly missed by them.

Mr. F. P. Catchings has located in Gainesville.

Some of our farmers' corn is turning out better than they expected.

Mrs. Catchings of Gainesville, was in the city a short while last week.

The little three-months-old child of Mr. John R. Graham of Two Run, died Saturday night.

A splendid organ for sale at a bargain by Miss Amanda Cain at the Photographic gallery. Call and examine it and get terms.

All who are indebted to us either by note or account must settle at once or you will have to settle with an officer.
2t ANDERSON & JONES.

ESTRAYED.—A small ten-months-old bull yearling, wearing a small bell with a cloth collar, and a Jersey stripe on its jaw. Please notify William Vaughn at Dahlonega of its whereabouts. 3t.

Sheriff Davis went down into Dawson county last week and arrested Mr. J. O. Hughes, a merchant, who is charged with perjury in this county. He quickly made bond and has no fears of the case whatever.

Prof. Barnes, who is in charge of the cadets, carries out the duties of his office with satisfaction to both cadets and trustees. Although he makes the boys "walk the chalk line" they all like and respect him.

The parties stringing the wires to the Chestate power plant to right up Gainesville, got as far as Price last week, and are moving right along with it, hoping to get through next week if the weather is favorable. Then a telephone line will be strung, but this can be done very fast.

We notice that one man takes his son-in-law's NUGGET out of the office and reads it first. Doubtless it was in the contract to give our patron his daughter, provided he would subscribe for and let the old man read the paper first. This is one way of making an economical trade.

When Mr. John Moore first dug a well at his slaughter pen the water in it was 3 feet deep. Since that time he has dug at different times until it is fourteen feet deeper than it was at first and he only has 18 inches of water in it. This gives some idea of the dryness of the ground in this section.

The following cases from Lumpkin Superior court have been reversed by the Supreme court, to-wit: W. J. Loveless vs. Standard Gold Mining Company, damage; Wheelchel et al. vs. Poor—motion for a new trial. Wheelchel vs. Gainesville & Dahlonega Electric Railway Co., equitable petition.

The NUGGET vanishes nothing, even it does cause embarrassment sometimes. There is a woman here now who is shy of ye editor than she is of the pastor of the church, and runs when she sees us like we had the small pox. If she had always been this shy of men she would have been able to face the music and stood some chance of getting to heaven on the "first round."

A party who has been up in White informs us that the citizens of that county are petitioning the ordinary to give the promoters of the proposed trolley line from Atlanta to Cornelia, the right to use the public roads and bridges of White. They consider that it is even better for the section if it was necessary, to build new roads and bridges than to do without a car line.

One day last week a blockader dealt out a few quarts of mountain moonshine liquor to a few who like the juice, a short distance below the cemetery and went on unmolested. It was said to be a good article, the first we have heard of in a long time in this section. The most of it being sold here is mean enough to make a fellow, getting full of it, to fight his great grand ma.

Eggs was sold here last week at 18 cents per dozen.

A little child of Barthy Blackwell died last Sunday night.

It rained yesterday for the first to amount to anything for three weeks.

This time last year it was cold and snowing. Now it is warm and many trees have green leaves.

Chickens are scarce in the Dahlonega market. Not enough can be had now to even supply the Methodist preachers.

Mr. John Hatfield went down to Gainesville this week to see about getting fresh oysters to supply the market here.

Those wishing to rent a good house can get the home place of Mr. E. E. Crisson in Dahlonega by calling on Mr. Wilkins at the Crisson store.

Another new case of scarlet fever has developed in Dahlonega this week—down at Mr. John Housleys. The other patients will soon be well.

At the sheriff's sale here last Tuesday corn brought 50 cents per bushel and fodder 85 cents per hundred. The corn and fodder was ten miles away otherwise it would have brought a better price.

Dr. Homer Palmour, the well known dentist of Dougherty, Ga., will be in Dahlonega on the 10th inst. for the purpose of doing all kinds of dental work and will remain until the 20th.

The letter of Rev. S. M. Kinsey, in reference to a paragraph that appeared in the NUGGET recently about the action of the Chestate Association, will appear in next week's issue.

The cost of holding the congressional election in this county last Tuesday was \$8 in the town district and \$5 in each county precinct where elections were held. At some precincts the vote was so small as to cost one dollar a vote.

Mrs. Charlie Roberts died last night at this place of consumption, and gone to join her little child and sister who passed away less than two months ago. The deceased leaves a husband, other relatives and friends to mourn her loss.

When they commenced laying the track of the Gainesville & Dahlonega Electric Railway last week at Gainesville, Col. H. H. Dean drove the first spike on the road. Ordinary W. N. Dyer the second and Councilman L. D. Puckett the third.

Joe Parker, a white man, who was being held at a police headquarters in Atlanta, because of his mental condition, dropped dead in his cell last Sunday. We do not know whether this is the Joe Parker who went from Dahlonega to Atlanta a few years ago or not.

All persons interested in the Bethlehem and Jones' Chapel grave yard are requested to meet there with axes, shovels and mattocks Monday, Nov. 10, to clean off and build up the graves here, extra of subscriptions. By order of committee.

T. H. WORLEY, Ch'f.
C. M. FERGUSON, Sec.

Blocks fine soda crackers 10c. Full cream cheese 18c. Double strength vinegar 85c. Nice pitchers and bowls \$1.15. All grades of towels from 4c to 46c each. 10 4 sheeting 10c, a \$2.50 rug for \$2.08. Nice table linen 58c. Red table cloth 23c. Some nice umbrellas and picture frames will arrive next week.

B. R. MEADERS & SONS.

From a letter received by relatives here, we learn that Miss Lizzie Chapman had the misfortune to break her left leg in two places, near Atlanta the other day, also had one or more of her ribs fractured. Miss Chapman was riding in a buggy and the horse attached got scared at an automobile and the injuries were received by the lady jumping out. Miss Lizzie is a sister to Mr. John Chapman, who resides near Dahlonega.

At T. J. Smith & Bro. you can get bran at \$1.00 per sack and every thing else in proportion.

Mr. J. W. Meers of Fannin county, was in Dahlonega this week looking after some land he owns in this county.

Corn is now selling at 60 cents per bushel in Dahlonega. A printer can very well afford to eat mush at this price.

Mr. Frank Anderson and Mr. Ben Shed have returned from Alabama, the latter having the typhoid fever. Mr. Gordon Smith also came in.

Col. James Butt of Blairsville, was in Dahlonega first of the week, being the first time he has been here for years. He was accompanied by his daughter, Miss Blanche.

U. S. Deputy Marshal Grizzle of Dahlonega, had to attend U. S. court in Athens this week as a witness against some blockaders he had arrested some time ago in White county.

A young man came to town last Sunday with the license to carry off one of Dahlonega's pretty young ladies, but some reason the wedding didn't occur and he returned all alone with no one to comfort him in distress.

A hog owned by some of the boys over at the mess hall got choked last Sunday and it was pretty amusing to see about 20 of them treating it. The hog couldn't stand the storm and passed in its checks.

Several of the republicans of the town and county who are not so silly and chicken hearted, have renewed their subscriptions to the NUGGET and continue reading it with as much interest as if no election had ever occurred.

The young folks had another dance at the old Dahlonega Hotel last Saturday night. It is a good time to have them, then if it is wrong to dance they can attend church the next day and ask to be forgiven.

While the members of the legislature went to Athens last Saturday Hon. G. D. Bruce came up home. He says that the present body is inclined to cut down the expenses of the state, which is a good idea if done at the proper place and manner.

There will be a horse swapper's convention held in Dahlonega, beginning on the 27th inst. and continuing for three days. A good time is expected by the jolly fellows who will be here. If you have any thing to swap or trade come in, if not come any way.

Manda Hashaw, the negro woman who has been insane for some time, did a big days washing and ironing last Sunday. The neighbors tried to persuade her to stop but she kept on until her days work was finished. The old negro observes Wednesday as a day of rest and won't work a lick on that day.

Gen. Warner went across the Blue Ridge into Union county last Saturday, to take a geological survey of the country, accompanied by his wife. It is the General's first visit to that section and no doubt he saw many things of interest to him. Union county is a fine agricultural section and the apples, cabbage and Irish potatoes that it produces is interesting to any one.

Dahlonega was made bright and lively last Monday afternoon by the appearance of about twenty college girls from Gainesville, accompanied by Prof. Vanboose. When they came in they gave their college yell which was answered by the N. G. A. College cadets, causing those who were unaware of the young ladies coming, to gaze and wonder. Soon after arriving they visited the large Hand mill, which was a grand curiosity to many of them who had never looked at a gold mine before.

After spending the night at Hall's Villa, visiting the college and looking around some the next day they departed apparently delighted with their visit. Come again. The gates of Dahlonega are always open to young ladies.

Mining Notes.

Mr. Maxwell commenced pumping the water out of the Lockhart shaft last week. Old miners who have had an opportunity to know, say that the Lockhart is the best deep mine in this county.

Messrs. Sovcy, Trezent & Bruce are moving right along with their mining operation down at the Barlow. The results are very satisfactory, which is not surprising to those acquainted with this celebrated gold mine.

A survey was made to locate on what property the coal had been discovered on Black Mountain last week by County Surveyor Bryson. It appears now that it is one of the F. W. Hall estate lots in Lumpkin and on some one else's in Union county.

Work has been suspended down at the Turkey Hill mine for a few days on account of the pump breaking. The necessary repairs are being made and things will be moving along all right in a few days. The last work done by the lift proved the mine to be as rich as was expected.

Messrs. Griffin & McDonaids have declined searching for the Boley Fields' chute for awhile. They are on a streak that is more certain. A ton and a half made \$12 and the vein grows larger and richer, and a vein like this is more profitable to work than to lose time in searching for one.

Down at the Standard the company is working at the Benning and two other places, but if rain don't fall soon their work will be retarded. The water is almost as low as it was a short time ago, rendering them unable to run but ten stamps and often now the mill has to be stopped, waiting for water.

The large number of iron pipes hauled through Dahlonega to the Load mine in White county recently, shows that they are going to operate this mine on a larger scale than heretofore. It is a good gold mine, from which thousands of pennyweights of the precious metal have been taken and plenty more to be found.

Mr. William Ricketts has been awarded the contract of building the new dredge boat for Messrs. Ingersoll, Crisson and Keenum, to be put in the Chestate river above the Hall dam. It will be 28x68 feet. No doubt the stream at this place contains much gold and this investment will be a good one. The boat will be commenced about the 15th.

Mr. Fry commenced last Saturday resurveying a portion of the Briar Patch ditch. The object of this is to shorten the line and make it less expensive. Mr. John Huff, the superintendent, says it can be shortened some four or five miles, save the cutting of several tunnels and shorten others by a new survey, and reach the mine some fifteen feet higher than by the first survey and this gain in grade means a good deal in mining.

Villa Dots.

The party of young people sat upon the piazza, watching the gorgeously tinted leaves as they fluttered from the overhanging maples, crosscutting the brilliant rays of the sinking November sun. Brimming over with love, the pretty dark eyed girl, held within her velvety grasp, the hand of the tall graceful girl, she loved so dearly.

Presently the tall girl withdrew her hand, when at the same instant, the man under six feet, deftly took its place, while in responsive love, the dark eyed girl emphasized her love by increased pressure.

The crowd saw it, and waited for the explosion, which however was delayed until the victim, saw all eyes turned towards her hand, and noted the giggling of the waiting friends.

Slowly her expressive eyes dropped to the point of attraction, and after uttering a slight scream, her cheeks, in brilliancy outshone the red red roses pinned upon her

heaving breast. Then the general explosion followed, but it is passing strange that the possessor of the velvety hand could not make the distinction. He is a working man.

We are indebted to Mr. W. T. Stringer for two large fine turnips and a cabbage, brought us last Monday. The cabbage weighed 114 pounds, one turnip weighed 35 and the other 44 pounds. Mr. Stringer certainly knows how to treat hungry country editors.

RHEUMATISM CURED AT LAST.

Good News For All Who Suffer With Rheumatism Free.

To all who suffer with Rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on Rheumatism ever published. No matter what your form of Rheumatism is, whether acute, chronic, muscular, inflammatory, deformed, sciatic, neuralgic, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "sore cures" you have tried—I want you to write to me and let me tell you how mother was cured. I am neither a Doctor nor a Professor—simply a plain man of business—but I have a CURE for Rheumatism, and I want to tell everyone who suffers with Rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however apparently beyond the reach of cure, will write to me this day and I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are worn and discouraged with "doctoring" and to those who have been cast aside as "incurable." All you have thought about Rheumatism may be wrong. Let me tell you our experience. Surely, if you have Rheumatism, or have a suffering friend, it will pay you to investigate my offer, anyway, and prove for yourself these claims I make. Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have any friends suffering with Rheumatism no matter where located, send me the address, and I will mail them a copy. My address is VICTOR RAINBOLT, Bloomfield, Ind.

Slaughter Sale OF Clothing.

My entire stock of clothing, consisting of Mens, Youths and Boys 2 piece suits at absolute cost for the next 60 days. This is no catch ad. I am going out of the clothing business and if you are looking for bargains, the lowest you have ever seen, you will find them at

and if they are not we will return
them. I don't take the stamps from
the envelopes, but send the envel-
opes with stamps attached.
JOHN HOWARD,
Dahlonega, Ga.

Autumn Time is Here.

Again we are constrained to
note for the benefit of our sleep-
ing congregation that time, the
"melancholy days" about which
the poet has sung, are upon us,
the time when the heart of man
turns sorrowfully to winter wood
and heavier underclothes.

This is a season which should
be fraught with much reflection
to everybody, for it is the harvest
time, the time when the farmer
goes out to rake his corn fields
sweet with corn, and his pants
full of cockleburrs, and it is also
the happy time of the year when
a good swig of last year's corn
whiskey goes mightily to the soul
before breakfast times, or indeed
any old time for that matter.
Autumn should teach that there
must come at settling time, that
as the merchant must be paid his
extortionate prices for meat and
bread, so should we look over
our accounts and see how we
stand. If you have felt in should-
er with all the enterprises started
for the benefit of section, (for
this is preeminently a period of
progress) then your account is be-
hind. If you have not paid the
preacher you should be tried for
lunacy, if you have gotten drunk
and abused your wife you should
enter up against your account
"hanging," and if you have let
this sweet, brisk autumn time
come upon you without paying
your subscription you should be
licked through and through with
an iron toe.

Gentle reader, as you gaze upon
the golden leaves so softly fall-
ing, remember that before another
autumn time comes you may
pass beyond the other shore,
where the rail piles have fire on
them these mornings instead of
frost, and where you will never
again gaze upon the pages of your
cheerful home paper.—Ex.

Way of the Boodyley.

Henry—Uncle Jake, I suppose
you never got paid for voting for
or against any measure when you
were in the legislature?

Uncle Jake—Never, my dear
boy; never.

Henry—Then what they say
about that wildest railroad bill is
all a lie?

Uncle Jake—Yes, Henry. I
suppose the report came out of
the fact that I did get some money
from the chap that was push-
ing the bill, but that was all right,
Henry. You see, this chap came
to me one day and wanted to let
me \$1,000 I wouldn't vote for his
bill, and I took the bet. He lost,
and I got the stakes. That's all
there is about it. And now they
have the face to accuse me of tak-
ing a bribe.—Boston Transcript.

Misdirected Energies.

The waste of energy shown by
some men is pathetic. With the
intention of accomplishing worthy
deeds they urge themselves to
efforts which, properly directed,
would bring the early fulfillment
of their ambitions. Their fail-
ures largely lie in not clearly de-
fining the object which they gain
or in working spasmodically or
without system to accomplish it.
They are seized at times by dis-
couragement and lack of faith in
themselves when the turning of
their forces into the proper chan-
nels and a steady, unceasing pull
toward the goal would speedily
bring them to it.—Mabin's Mag-
azine.

A Judicial Rebuke.

In a case once tried before
Judge Robert G. Grier, Andrew G.
Curtin, then a young man, made
an impassioned speech in defense
of a man about whose guilt there
could be little doubt, and to the
surprise of everybody the verdict
was "not guilty."

Judge Grier glared at the jury
with a look of disgust and then
drawled out in his squeaky voice:
"Humph, gentlemen! This is
like ordering out a regiment of
United States soldiers to shoot at
a pigeon and then miss the
pigeon."

A Romance and its Token.

The writer remembers some
years ago making the acquaintance
of a very charming Irish gentleman
and lady. One day she thought she
observed that his eyes were rest-
ing inquiringly on her brooch,
which was of gold, inclosing a
mass of fractured bone. She
laughed and said: "Are you ad-
miring my brooch? I will tell
you the story of it. One day
some ten years ago, when I was a
young girl, I was staying in the
house of a friend who also knew
Mr. N., who is now my husband.
We were having a game—a romp
—and running after each other
in the house, which was large,
with long galleries and chambers
communicating with one another,
Mr. N. was close behind me try-
ing to catch me. I darted through
a door and threw the door back
behind me. Mr. N. had his head
down, and the handle struck his
skull, and he fell stunned. The
skull was fractured, and to save
his life he was obliged to have it
trepanned. Now he wears a plate
of silver over the hole, and I wear
the portion cut out of his skull in
this brooch. We became engaged
and are now man and wife."—
Cornhill Magazine.

The Part Babies Play.

People who habitually put ba-
bies out of their hearts and close
their doors upon them have no
idea how much comfort they set
aside, what pleasure, what amuse-
ment. Of course the little crea-
tures meddle with things and
leave the traces of their fingers on
the wall and cry and "bother" a
little, but when one gets into the
way of it, as mothers and other
loving relatives do, those things
become of minor importance.
Children say such pretty things
and do such funny things, the
touch of their little hands is so
soft, the sound of their voice so
sweet, their faces are so pretty,
so contented, so grateful and so
convinced that the whole family
goes baby mad—and it is no
wonder. No book was ever writ-
ten that was half so interesting as
a little child that is developing
from a tiny animal into a being
with a conscience and a heart.

John Wanamaker who is both
an advertiser and a newspaper
publisher, and therefore compe-
tent to speak from either stand-
point, is credited with the follow-
ing: "There is only one way to
advertise, and that is to hammer
your name, your location, your
business, so constantly, so per-
sistently, so thoroughly into the
people's heads that if they walked
in their sleep, they would con-
stantly turn their faces towards
your store. The newspaper is
your best friend in spite of your
criticism. It helps to build up
the community by the things you
say. When the day comes that the
newspapers are dead, the people
are near the edge of the grave,
with no one to write their epitaph."

**Mother
Lost Reason After
LaGrippe.**

**Daughter Had Fre-
quent Spasms.**

**Dr. Miles' Nerve Cure
Them Both.**

Dr. Miles' Nerve is a specific for nervous
disorders. It removes the cause and effects
a speedy and permanent cure.

"I feel it is my duty to let you know that
your medicines have cured my little girl of
nervous disorders. She commenced having them
at the age of three. Our family doctor said
she would outgrow them but she did not.
We took her to another physician who said
her trouble was hysterical fits in a mild form.
He did her no good either. She was so
nervous she could hardly walk. As I had
already used Dr. Miles' Nerve and found
it a good remedy for my ailment I com-
menced giving it to my child. I gave her in
bottles of the Nerve and one of the Blood
Purifier. Just over two years ago and
she has not had an attack since we com-
menced the treatment. She is no longer
troubled with nervousness and we consider
her permanently cured. I enclose her pic-
ture. My mother-in-law lost her reason and
was insane for three months from the effects
of LaGrippe. She bought of Dr. Miles' Nerve
cure her. My sister has also taken it
for sick headache with good results. We all
thank you very much for your good medi-
cines and kind advice. I don't think there
is any other medicine like yours. I enclose
my daughter's photograph so that you may
see what a sweet little girl lives out in
Arkansas.—Miss HASKELL, Bakers-
ville, Spangdale, Ark.

FOR HARNES and handle horse Mexican Mustang Lin-
iment is just what you need. It is so called
at once, and you will be astonished to see how quickly it heals sores.

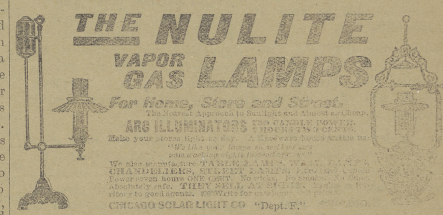

It's this way:

You can burn yourself with Fire, with
Powder, etc., or you can scald yourself
with Steam or Hot Water, but there is
only one proper way to cure a burn or
scald and that is by using

**Mexican
Mustang Liniment.**

It gives immediate relief. Get a piece of soft old
linen cloth, saturate it with this liniment and bind
loosely upon the wound. You can have no adequate
idea what an excellent remedy this is for a burn until
you have tried it.

A FOWL TIP. If you have a bird afflicted with Roup or any
other poultry disease, use Mexican Mustang
Liniment. It is called Roup in some parts of the country.

Replication to the Editor of
The Nugget.

OCULUS, GA., Nov. 3, 1902.

MR. EDITOR: I shall be quite glad to set myself straight in your most valuable paper by speaking for myself, concerning some misrepresentations of the Chestate Baptist Association. I want to say that we are in favor of Sunday Schools, Temperance, Education, &c., and have been all the while. I went to Sunday school in Dahlonega when I attended college there, and at home; also have been a teacher and superintendent. The churches of the Chestate Association have Sunday schools, more or less, as they have opportunity. They believe in temperance and practice it as a whole. True, some of the members may—and I suppose do sometimes—become intoxicated, as do members of all other churches or associations, but we preach temperance and the churches accept it, the word of God teaches it. They are all, more or less, trying to educate their children as I am mine. The 1901 session of the association advised the churches in reference to temperance. Hence, why should you or any one say that we were, or are, opposed to Sunday schools, temperance, or education? Was it not from the fact that we appointed no committees on Sunday Schools, temperance and education? If so, it is a wrong view. We might slander Christ and the Apostles in the same way, by saying they were opposed to Sunday schools, temperance and education, because they had no committees on these subjects. Now will you say they had committees on these subjects? If so, please refer us to the chapter and verse. Some would say we were opposed to education because we did not think men had to be educated to preach the gospel. While I believe in education to fit us for all the duties of life, we might not believe in all kinds of education and for all sorts of purposes. There is a worldly education and a divine education. Christ has His schools, or a way of instructing, and we have ours.

For instance the query, "Why should we educate men to preach the gospel?" I don't see why we should. That is not our business. God calls, qualifies and sends them into the world to preach the gospel. They are God's preachers, not ours. The men made and qualified preachers are no higher than themselves. The servants of men teach the doctrines and commandments of men. Thus they heap to themselves teachers, having itching ears. As Paul says: "Men please false teachers." It is no doubt said we are opposed to education, because we do not believe in educating men to preach the gospel. That is not our business. We may make farmers,

school teachers, lawyers, doctors, &c., but God makes preachers of the true kind. Solomon's temple was built but we grow into an holy temple in the Lord through the spirit. The wisdom of this world is obtained by an assiduous study by works, but the divine wisdom is by grace. We grow in grace and in the knowledge of the truth. Christ is made of God unto us wisdom, etc. The world by wisdom knew not God, neither do they know Him today. These things are spiritually discerned, that is the scriptures. "Unless a man is born from above he cannot see the kingdom of God." Should we educate men to preach before they are saved or called, or even then whose business is it to educate them to preach the gospel? The Apostles tarried or waited at Jerusalem until they were endued or endowed with power or wisdom from on high, not earthly wisdom. His ministers are all able—not in the letter but in spirit. Christ knew what was in man. He can call a wise man when he wants one. "But ye see your calling, brethren, know that not many wise men after the flesh, not many mighty, not many noble are called. But God hath chosen the foolish things of the world to confound the wise," &c. 1 Cor. 1, 26, 27, 28, &c., also 2 Ch. God gave some (not man) Apostles, prophets, teachers, pastors, evangelists, &c., for the perfecting edifying of the saints.

Now, Mr. Editor, I could say many other things about this important subject, but I will close.

Yours Truly,

S. M. KIMSEY.

Uniform Text Books.

The bill providing for uniformity in the text books used in the public schools of Georgia is a most important measure.

The bill introduced by Mr. West, of Lowndes, places the selection of the books to be used in the hands of a commission headed by the Governor, including the chancellor of the State University, and provides a term of office of five years for the commissioners.

The commission, in the event the bill is made a law, will advertise for bids for school books to be furnished for a period of five years and samples of books must be submitted. Under the provisions of the bill only uniform, non-sectarian and non-sectional books may be contracted for and a provision is made for the contractor to furnish bonds to secure the faithful performance of the contract. In the event of its adoption the bill will go into effect January 1, 1904—Marietta Journal.

The Sparta Ishmaelite is guilty of this: "Many a man would rather pray for you than pay you what he owes you, and that is one reason why the confidence between men is dead and the devil has the country all under-shold."

A legless negro has been running a blind tiger in Athens.

The members of the legislature took in the state fair at Vailosta last Friday.

The grand jury during the two days of the U. S. Court at Athens returned nearly 200 true bills.

In the production of cane, Georgia is the third in the United States and territories. Hawaii leads.

Only three counties in North Carolina went republican. The democratic majority in the other counties was 67,000.

Parson W. C. Rabe and Miss Busch were found dead in each others arms in a church at Omaha, Nev., one day last week. Gass seemed to put an end to the happy couple.

If the end of a beefsteak has been blackened during the broiling process, and you wish to convert into a mince or stew, simply wash it by pouring boiling water over it.

With a record of seventy-five thousand cases of cholera in the Philippines since last August, it seems that the Filipino will soon leave the islands unmolested.—Marietta Journal.

During the month of October the Pacolet mill at New Holland turned out over one-half million pounds of cloth, which breaks the record of any other 25,000 spindle mill in the South.

Wilkes county has 2 negroes to 1 white man. The population is 14,000 negroes and 7,000 whites. The county is also reported to be several hundred thousand dollars poorer than it was ten years ago.

Mr. Miller of Muscogee, wants longer sessions of the legislature. His idea is to allow the members \$250 or \$300 a year and allow no mileage. In this way he says it will not cost any more than the present sessions.

No class of women are more deserving of good husbands than are the women who make their living with their needles. They are usually modest, refined and domestic. They do not hunt husbands, and being so withdrawn from the daily lives of men, husbands do not hunt them because they do not usually know of them.—Ex.

Why Leaves Change Color.

A leaf is composed of a great number of cells, the walls of which are brown. In the spring and summer these cells are all filled with fluid, colored with minute grains of red, yellow and other pigments, which, mixed together, appear green. In the autumn, through the cold, oxidation and other changes take place in the leaf cells, destroying more or less rapidly certain of the color elements. As soon as one of these elements is gone the leaf no longer appears a normal green, but assumes the shade of the remainder of the color elements mixed together. When only the red element is left the leaf is red; when yellow alone remains, the leaf is yellow, and when the coloring-matter has gone the leaf is brown.

Frost is not the sole cause of the changes of color, but it is an important cause. The more gradual the changes of temperature from summer heat to winter cold, the greater will be the variety and brilliancy in the coloring of the autumn leaves.—October Woman's Home Companion.

Selling Out At Cost

Having decided to sell out my entire stock of goods by the first of January next, I have put the prices of all my articles, consisting of everything kept in a general mercantile establishment, at and below cost. If you want sure enough bargains now is your chance. Those owing me, either by note or account, will please come forward and settle at once. J. T. MILLER, Auraria, Ga.

THE NUGGET.

DAHLONEGA, NOV. 13, 1902.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

Every member of the Georgia senate belongs to some church.

Dr. R. H. Thomas, the diamond thief in Atlanta has been sent to the penitentiary for four years.

A bill is before the house to create a board of state tax assessors, who appoint county assessors, to equalize taxation in Georgia.

Walter Harrison, a fifteen-year-old white boy, was beaten and robbed of \$200 in Atlanta last Monday at the Williams' house.

After being in session more than two weeks the house passed its first bills last Friday and they were of minor importance.

Rev. M. J. Cofer, well known in Dahlonega, has been elected business manager and assistant editor of the Wesleyan Christian Advocate, Atlanta.

The New York Tribune says that the revenues of the postal department is increasing so rapidly that predictions of one cent stamps for letters are heard of in many quarters.

Safe blowers have been getting in good work at Hoschton, Ga. Dr. Luperrier's safe was relieved of \$465 the other night. About a year ago the Doctor lost a thousand dollars in this manner.

In reference to state pensions, Commissioner Lindsey says that the list is increasing instead of decreasing. He says that the rolls should be purged. They are burdened now with men who never saw the enemy. \$880,000 will be needed to meet the demands in this department next year.

Milton Cook, a prominent farmer of Hall county, was accidentally killed at Quillian's saw mill last Saturday, by setting his load of gun down with the hammer striking something. The deceased was a brother of Mr. D. L. Cook of Lumpkin county. His mother had presented the gun to her son one week to a day from the time he was killed with it.

Last week's Signal dwelt at length about what Attorney Will Huff swore before the grand jury, concerning Sheriff Davis and a reward received from the state, intimating that he concealed the truth. Now what about the grand juror who swore that he would not divulge anything coming before the body who gave the Signal reporters their information? Was he a democrat or a republican?

In Wisconsin last Saturday night, while a big dance was in progress, and just as the waltzing began, a mad dog entered the hall and began to bite right and left and one hundred men and women were bitten before the dog could be killed. Perhaps nothing but mad dogs and death will stop some people from dancing. The head of John the Baptist was severed from his body to satisfy the desire of one dancer.—Blue Ridge World.

The coal bed, in Lumpkin county, near Dahlonega, which was recently discovered, seems, from investigations so far made, to be inexhaustible, and the coal of a fine quality—equal to the anthracite in the coal fields of Pennsylvania. Harrah for North Georgia! The coal famine will not effect her much. This is a wonderful country anyway. We make our own bread and meat; raise our own stock, and when a man is short on money, he can go on almost any branch and pan a few penny-weights of gold. We are an independent, contented and happy people. We do not mix and mingle much with the outside world, and on that account we are better off. We are a peaceable and law-abiding people, and are content with such things as we have.—Blue Ridge World.

A Letter From an Old Soldier.

By request we publish the following letter from an old ex-Confederate soldier who left Dahlonega soon after the Civil war: EX-CONFEDERATE HOME, SWEET HOME, ARK., November 4, 1902.

MY DEAR NEPHEW: Your welcome letter reached me by due course of mail and I must say that it gave me more than a passing pleasure to hear from you and others. I also received copies of the Advance, from Cherokee county. I had expected to hear from some of my old comrades, but perhaps they did not see the letter I wrote, which was published in the Advance.

Nothing does me more good than to remember the boys who shared with me the hardships of the war. I would be delighted to hear from them.

I do not know that I can say more than has been told, regarding this "Home." It is certainly a delightful place, and peace reigns supreme. All of the old comrades seem to be contented with their lot, for they are like myself, their usefulness is gone and they are no longer the men they were when they wore the "gray."

You asked me how long I intend to stay here. I can only say that I shall remain here during the short time I am spared to live and when I pass beyond the dark river I suppose my remains will rest beside and amongst the old comrades who have gone before, in the Confederate cemetery, near Little Rock.

The passing years dim our eyes and leave their furrows upon our cheeks, as birds that drink at lakes, leave their foot-prints upon the margin, but we should not complain of this for most of us here are living on borrowed time. Many here are past their three score and ten and they seem to placidly await the summons of their last "roll call," across the dark river, to rest forever in God's eternal camp ground.

Should you feel disposed, please hand this letter to your editor. I would be glad to have it published, that my friends may know that I am well as my age will permit and that they may know where I am, should any of them feel disposed to write to me.

Accept my love for yourself and others. Your affectionate Uncle, M. E. FERGUSON.

The Signal is still run by a republican and a soft shell democrat who claim that the paper is a democratic sheet, but they have a peculiar way of trying to prove it. Last week Mr. Bruce and Mr. Frank Wimpy were singled out by them as men against whom true bills were returned at the last term of Superior court, endeavoring to "soft soap" the people by saying that it was regretted because they were leading democrats. Isn't this a poor way to show democracy? There were many true bills returned against both republicans and democrats, and why should special mention be made about these two gentlemen? Simply because Mr. Wimpy advertises in the Nugget along and Mr. Bruce is not liked by them. There was a true bill returned against a man right here in Dahlonega who has been arrested and made bond, charged with selling liquor, and nothing was said about it in the Signal, while its editors were in search of court news. Yes, and 15 true bills were returned against republicans. 3 for selling liquor, 2 for riot, 1 for aiding prisoners to escape, 2 for carrying concealed weapons, 1 for obtaining goods fraudulently, 1 for assault and battery, 1 for deserting his child, 1 for disturbing divine worship, 1 for being drunk at church, 1 for using obscene language, and not a word appeared in the Signal about them.

Don't forget to register. You may want to vote in the council men's election when it comes off.

CASH WILL BUY at J. T. MILLER'S

Closing Out Sale

Arbuckle and 4A roasted coffee @ 11½¢ per lb.
Good green coffee 3½¢ for 25¢.
Nice fresh lard 10¢ per lb.
Nice bacon 12¢ per lb.
Celestial Pat. flour \$2.48 per 100 lbs.
It's no joke about my selling out. Bring your cash and see. Over \$2,000 worth of goods to close out and cash will get them.

HISTORY, HANSELL'S.	GA.	N. C.
First book	60	40
Second book	1.00	.70

A slice of pig skin will be grafted on the back of a little negro girl suffering from burns at the Virginia hospital. Relatives refused to supply cuticle for a graft and the physicians decided on the experiment. The skin will be split to avoid the growth of bristles.

The bill before the legislature to prevent white women from teaching in negro schools should become a law by all means. White ladies can find something else to do that will suit them better than this kind of an occupation.

Col. W. A. Charters left last week on his annual visit to his old home in Virginia, where he is meeting old friends and acquaintances.

Last Friday near four hundred thousand dollars were paid on Wall street in New York for bets on the recent election.

THE NUGGET.

DAHLONEGA, NOV. 13, 1902

Mrs. Webb is prepared to do sewing of all kinds.

The first number of The Tablonekan will appear next week.

On Mondays nearly all the young ladies and many of the young men spend the day in horse-back and buggy riding.

We noticed a little boy returning from Sabbath school last Sunday with a nice possum. This may induce other children to go.

Mr. Miles Berry of this county, was bound over last Saturday by Com. Baker, charged with violating the Internal revenue laws.

Mr. H. D. Jaquith of Gainesville, has moved to Atlanta so as to be able to give his mine in that vicinity his personal attention.

Those who heard Presiding Elder Pierce's sermon at the Methodist church last Sunday night, pronounce it as an able and instructive one.

Sheriff Davis arrested Emory Fowler and George Crane in Dawson county last Tuesday, charged with fighting in Mill Creek church some time ago.

Rev. W. H. Pryor, who resides near Social Circle, Ga., came up and preached two very good sermons at the Baptist church here Sunday and Sunday night.

ESTRATED.—A red pided cow, with more red on neck and head than elsewhere, belonging to Arthur Singleton. Finder will please let him know at Dahlonega.

Last Tuesday was the last Quarterly Conference at Dahlonega, and still about one hundred dollars due the preacher. We infer from this that the assessment has been too heavy.

Harve Anderson, a colored man who use to run a barber shop, died in Dahlonega last Monday evening. A little child of Arthur Singleton died the Saturday night previous.

Remember that the horse trader's convention begins in Dahlonega on Thanksgiving day. So if a fellow trades and gets a better horse or mule than he now owns he can be thankful.

Mr. John Cook of Montana, was married last Sunday to Miss Alice, a daughter of Mr. Peter Garret of this county, by Squire W. J. Worley. They had been engaged for more than three years.

Mr. Crof Moore, who is engaged down at the Dunlap shoals, building a dam for the Electric Railway Co., was up last Sunday and reported that they are making splendid progress with the work.

The Briar Patch produces large vegetables as well as big nuggets of gold. Mr. Will Hulsey raised a radish down there this year measuring six inches in diameter 22, inches long and weighed 12 pounds.

Last Monday while John Worley was out hunting he placed his gun between his legs while standing on a log making a cigarette, and the gun slipped and discharged and tore the under part of his right arm off near the elbow. The lead first passed through his pocket and one shot penetrated his side.

Last Sunday Docia Beck and her husband Robert had a fight over about Cinda Holts. The husband accused his wife, from whom he is separated, of having too many lovers, caused the row. The wife struck Bobbie on the side of the neck with a flint, causing him much pain, and she now wears the belt.

Mr. Martin Gorch of Union county, was in town yesterday with some of the finest apples we have seen in a long time. They were the World's Wonder. One weighed a pound and two ounces and two weighed two pounds and one ounce. This is a great apple country and those having orchards are making money.

Corn retailed here last week at 60 cents per bushel, and corn juice 80 cents per quart.

Farmers received 75 cents per bushel for good apples here last week, but a small price for cabbage.

W. W. Crisson and Will Brookshar passed a few ticks in front of the court house last Saturday afternoon.

Some families, who moved from Dahlonega to Gainesville first of last week, returned the latter portion of it.

If you wish to post your lands, come and procure a set of printed cards at the NUGGET office, especially for the business.

Mr. Charlie Kerr and Mr. Will Asbury, who have been stringing wires for the Electric Railway Co., spent Sunday in Dahlonega. They will reach the Chestatee plant this week.

If the posting of lands continue like it has in the past few months, the hunter can sell his gun and give away his dogs, for no place can he go, not even to fish, unless he violates the law.

A lady caused some comment one day last week by riding a long eared mule to a corn shucking. The song of the animal led every one to believe that it enjoyed the trip as well as the rider.

Since the hunting season has set in, those fond of the sport are out both day and night very often. Last Saturday night a man and woman were on Crown Mountain at 12 o'clock in search of "possums."

Dr. Homer Palmour is here located at Hall's Villa, where he will remain until the 20th. So if you need any dental work and wish it done by a first-class dentist, now is your chance. His work always gives satisfaction.

There was another agent of the Chicago Portrait Co. in Dahlonega last week delivering enlarged pictures. So those who have been crying out hard times are mistaken. Times are not hard as long as people can send three or four dollars off each to Chicago for big pictures.

We were promised a cold wave last week but it must have gone some other route, as we are still having beautiful warm weather, not enough frost has fallen yet to kill the leaves. And this week the astronomers say we will have a shower of stars, but so far they have failed to drop.

The other big heavy dynamo for the Chestatee plant arrived at Gainesville last Friday and is now being conveyed to its destination. It required about two weeks to haul the first one and we suppose it will take the same length of time to get this one to its place, provided the weather is favorable.

Miss Maggie Crisson left for Cornelia last Monday morning, where she goes to accept a teacher's position in the High School of that place, of which Prof. Colvin, formerly of Dahlonega, is principal. Miss Crisson is a graduate of the N. G. A. College and is thoroughly prepared to give satisfaction.

The blockaders of White county, have been making liquor from the skimmings taken off while boiling their syrup. After they get through making syrup the liquor can be manufactured in the same boiler in a single night. Some of this new kind of liquor has found its way into Lumpkin county and it is said that it tastes very well, much better than Pernau, a substitute often used here.

The other day, soon after the cold wave was predicted, a certain married man got as many rations as he could carry and started out in the direction of his lover's premises. He was like a ground squirrel, laying up eatables for the cold, stormy weather. But where was his wife? Working and taking care of herself the best she could for the time being, trusting in providence for the future.

Mr. Frank Meaders has returned from Swainsboro.

Prof. Boyd of Cavender's Creek mine, left for Clarksville today, in company with his wife.

Mr. J. H. Gamlin and Miss Olive Wehant were wedded in this county a few days ago.

A splendid organ for sale at a bargain by Miss Amanda Cain at the Photographic gallery. Call and examine it and get terms.

The tax collector begins his second round next Monday morning. So if you have the money now is an opportunity of paying it.

New students continue to arrive. Although there is a large attendance at the college there is room for others who desire a collegiate education.

Mrs. Emma Miles, after a two weeks visit here to her parents, Mr. and Mrs. M. F. Wheelchel, left for her home at Dalton, Ga., last Friday morning.

All persons indebted to me by note or account will find their notes and accounts in the hands of R. M. Bryson.

J. H. McKEE.

Col. Price, president of the Board of Trustees of the N. G. A. College, Col. R. H. Baker and Prof. Stewart, its president, are at Atlanta this week in the interest of this institution.

A room is being built on the first floor of the court house, opposite the postoffice, for the use of the County School Commissioner to cost \$85.05. The highest bid was \$95, and the next \$90.

ESTRATED.—A small ten-months-old bull yearling, wearing a small bell with a cloth collar, and a Jersey stripe on its jaw. Please notify William Vaughn at Dahlonega of its whereabouts. 3t.

Mrs. Minnie Hollifield, likely the oldest female in the county, died at her home near the Briar Patch last Sunday night, aged 95. The deceased was the mother of Mr. John and Dunk Hollifields of this county.

Mr. Hubbard, the electrician who use to live in Dahlonega, is located at Blue Ridge, Ga., for a few months. He still has the NUGGET to follow him, so as to enable him to keep up with what takes place in Dahlonega.

One of Lumpkin's farmers passed through Dahlonega yesterday with a wagon load of live hogs, on his way to Forsyth county, where they have neither fences nor hogs. This is the result of the stock law and proves that it is not needed in this county.

Mr. Tower of Boston, Mass., who is interested in the Briar Patch gold mine, has been here this week on a general inspection. He is gone now but will return soon for the purpose of spending the winter here and enter his son in the N. G. A. College.

A gentleman came all the way from Dawson county last Friday, thinking it was Justice's court day at this place, and after reaching here found out that he was a week too early. But he will not get mistaken any more, for he submitted for the NUGGET, which gives the time of all the court days in the county.

Deputy Marshal Grizzle went out into Nimbrelville district last Tuesday and found Noah Chester, Tarpley Howell and James Grizzle in an illicit distillery. They were all arrested and carried to Gainesville on account of Com. Baker being absent from the city. John Howell of the same settlement was also arrested and carried along.

The finest leaf tobacco we have seen this year was raised by Mr. G. McGuire right here in town. The spot of ground is only about one-sixteenth of an acre which has produced from 175 to 200 pounds of splendid tobacco. When it was green some of the leaves measured a yard in length and three-fourths of a yard wide. From four stalks alone 24 pounds were made, well cured fine tobacco.

The Methodist Conference convenes in Atlanta next Wednesday.

Rev. D. J. Blackwell left for Atlanta last Tuesday to be gone a week.

A little child of Wylie Reeves died near New Bridge last Sunday night.

Virgil Parks is back at home from Atlanta gathering his big crop of corn.

Mrs. W. F. Crussell of Atlanta, is up on a visit to her many friends in Dahlonega.

Two parties were caught prospecting last Sunday out near Hall's old field on the Dowdy road.

Mr. J. B. Duckett had a curiosity this week in the way of turnips. Four are grown together.

The scarlet fever is still confined at the three houses heretofore mentioned, and two new cases since our last issue. Another one of Mr. Housley's children and Miss Nettie Woodward.

Those expecting pensions need not lose time to come after them until next year, as they will not be paid until then unless the law changes, and we do not expect this will be done.

Mr. Fry commenced the survey of the new road across the Findley Hill yesterday, which was ordered done and a new one cut or changed in the old road, by the recent grand jury.

Do you need any new teeth, or old ones filled? If so call on Dr. Palmour, the dentist, who is located at Hall's Villa until the 20th, inst. He is a first-class dentist and will give you satisfaction.

There will be an all day singing at Oak Grove church, the fifth Sunday, inst. Everybody invited to come. Bring your books and help to sing the sweet songs which elevate and ennoble mankind.

It is said that there are five members of a certain church in this county, each of whom is worth from two to five thousand dollars, and 35 cents is all they have donated to their pastor. "Show pity Lord, oh Lord forgive." Sing.

The apple crop across the mountain is large and the fruit fine. The best can be bought over there at 25 cents per bushel, causing some of the citizens to make frequent trips after them, as they sell here at from 70 to 75 cents per bushel.

Several of the students of the N. G. A. College are preparing to enter the contest for speakers place in the state oratorical contest which takes place the latter part of this month. They are bright young men, good speakers and will make things warm.

If you wish to build up your town and county trade with your home merchants and keep every dollar you can in your town and county. Some of the merchants in Gainesville may give you a few "catch" bargains but they will make it up on something else, saying nothing about your loss of time in going to and from.

T. J. Smith & Bro. have just received a full line of dry goods and notions. You will find it to your interest to visit them before buying elsewhere. They can fit you in shoes in quality and price. They also carry a full line of groceries and will make it to the cash buyer's interest to see them and get prices. In fact you will find everything usually kept in a first class store. Cotton seed hulls, meat and bran in abundance.

News was received here last Monday evening that Will Wright, a negro man who drives for B. R. Meaders & Sons, of Dahlonega, had lost \$5.00 in Gainesville, being stolen by another negro, but it wasn't long until the marshal phoned that he had succeeded in arresting the thief and secured the money. The thief claimed that he gambled and won it from Will, but this was all the money he had which proved that his tale was false.

Mining Notes.

Some placer diggings are still going on down on the Briar Patch with good results.

Placer mining continues both day and night at the Calhoun mine with good results as usual.

Mr. Abercrombie of Union county, was in last week with a sample of coal found across the Blue Ridge recently.

Messrs. Griffin and McDonalds are making preparations to commence a search for the Boley Fields vein again. They expect to have their pump in and operation with a steam drill in about a couple of weeks.

We notice that a place has been cleaned off on Crown Mountain for the purpose of starting a new cut as soon as the water gets strong enough to run the plant. When that will be we cannot tell, as the streams are very low yet.

The work of building the dam at the Gorge is progressing rapidly. The weather is dry and fine for the business. Only about one day has been lost since the work commenced on account of rain. Two-thirds of the dam is now about ten feet high. Steam hoist and derrick are now in position working splendidly.

We heard two gentlemen remark the other day, who are thoroughly acquainted with the copper mines at Ducktown, Tenn., that the ore being taken out near Dahlonega is much richer than the best at those mines. But little will be done at the Lumpkin county copper mine except to continue sinking the shaft, until March. Then work will commence on a large scale.

Mr. Lee Wild, the superintendent of Cavender's Creek, who is at Webster, N. C., writes to us as follows under date of Nov. 6th: "As I see nothing in your paper about Cavender's Creek gold mines I will say to you that the work will begin shortly. The cutting of the ditch and mining and building of mills, and if not providentially hindered I will run the work there again as I did before."

Some mining still continues down at the Ivy. A short time ago Mr. W. C. Thomas and others struck a vein, one ton of which produced 40 pennyweights and thirteen grains. Another ton made 13 pennyweights. It lies in pockets and some are richer than others. The water and a cave interfered with their work to some extent, but they have sunk another shaft from which a tunnel will be cut to the vein.

The resurveying of the Briar Patch ditch was finished last Monday with a pressure of 130 feet, which pleases those interested in the mine very much. This last survey is shorter than the other by about five miles and the 600 foot tunnel is reduced 140 feet, made so by piping certain portions of the canal. At one point they struck an old ditch and run it for a mile which has only got to be enlarged a little and the upper and cleaned out.

What a Jealous Wife Found.

For the benefit of several jealous women in Dahlonega and Lumpkin county we publish the following for their special benefit:

A Fayette woman suspected that her husband was in the habit of kissing the hired girl and resolved to detect him in the act, says the Salisbury (Kan.) Press Spectator. Saturday night she saw him pass quietly into the kitchen. The hired girl was out and the kitchen dark. The jealous wife took a few matches in her hand, and, hastily placed a shawl over her head, as the hired girl often did, entered the back door, and immediately she was seized and kissed and embraced in an ardent manner. With heart almost bursting, the wife prepared to administer a terrible rebuke to the faithless spouse, and tearing herself away from his fond embrace, she struck a match and stood face to face with—the hired man.

The recent Grand Jury found a true bill against Tax Collector Wimpy for carrying concealed weapons; a true bill for the same violation was found against G. D. Broce, our present representative. We regret this state of affairs very much for they are both Democrats of the truest sort.—Dahlonega Signal.

Yes, but such things as this don't change a person's politics and the democratic party will live and prosper all the same. We know of a country girl who swore a child to a little fellow once who is editing a paper now. It gave him some trouble for awhile but it didn't change his politics.

RHEUMATISM CURED AT LAST.

Good News For All Who Suffer With Rheumatism Free.

To all who suffer with Rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatment on Rheumatism ever published. No matter what your form of Rheumatism is, whether acute, chronic, muscular, inflammatory, deformant, sciatic, neuralgia, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "sure cures" you have tried—I want you to write to me and let me tell you how mother was cured. I am neither a Doctor nor a Professor—simply a plain man of business—but I have a CURE for Rheumatism, and I want to tell everyone who suffers with Rheumatism all about it. I want to be clearly understood, and trust that all who are suffering with this terrible disease, however apparent beyond the reach of cure, will write to me this day and I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are weary and discouraged with "doctoring" and to those who have been cast aside as "incurable." All you have thought about Rheumatism may be wrong. Let me tell you your experience. Surely, if you have Rheumatism, or have a suffering friend, it will pay you to investigate my offer, any way, and prove for yourself these claims I make.

Send me your address today—a postal card will do—and I will mail you this wonderful story. I will send you friends suffering with Rheumatism no matter where located, send me their address, and I will mail them a copy. My address is VICTOR RAINOLDT, Bloomfield, Ind.

My entire stock of clothing, consisting of Mens, Youths and Boys 2 piece suits at absolute cost for the next 60 days. This is no catch ad. I am going out of the clothing business and if you are looking for bargains, the lowest you have ever seen, you will find them at

H. D. GURLEYS.

All Styles OF Shoes & Hats

Reduced prices from 10 to 30 per cent. Dress goods, notions and gente furnishings, cheaper by 10 per cent than any house in the city. A few nickel Rochester lamps complete at \$1.50 to \$1.75 at H. D. GURLEYS.

REGISTRATION OF CITY VOTERS.

By order of City Council of Dahlonega all persons qualified to vote and who desire to vote at the approaching city election are requested to register their names in a book of registered voters, which will be opened at the store of Councilman J. E. McGee in Dahlonega, on Monday, 10th of November, 1902, and will be kept open until Saturday night at 9 o'clock, December 13. This Nov. 4, 1902.

J. E. McGEE, Registrar.

TAKE NOTICE.

All persons indebted to the undersigned will find their notes and accounts in the hands of Wm. J. Worley, Esq., for collection. So please come forward and settle the same, as I am needing the money.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. The man that this picture is the face of a fish is on the wrapper of every bottle of Scott's Emulsion.

MR. O. B. STEVENS' INTERESTING TALK

Georgia Commissioner of Agriculture's Hints.

THE SCIENTIFIC FARMER.

It is the Duty of Every Man to Aim High—He Who Makes His Living by Tilling the Soil Should Be no Exception to This Rule.

Talk of the Commissioner. I have written many letters urging the farmers of Georgia to take the one step that will make our great State absolutely self-supporting, and sometimes I have feared that my persistence would weary them. But when you know that he is right, he must persevere.

In recent talks from this department it has been shown that Georgia is not yet the self-supporting State that she was previous to the civil war. Though there is in this respect great improvement, much yet remains to be done. Until every needed step has been taken, it behooves the Georgia Department of Agriculture to give line upon this aspect of the present.

In many sections of our State there is still time for the sowing of wheat, rye and barley. By as much as we have, through unfavorable seasons, fallen short in crops of cotton and corn, by so much is the necessity upon us to make up the deficiency in the abundance of other crops. Unfailing energy is the price of success, and this is as true of farming as of any other business. It is the diligent man, who shrinks not at any necessary toil, who makes his mark upon his day and generation.

One of the best signs of the times is the restlessness of the people in every industrial pursuit, the constant striving after better things.

A scientific farmer is a learned man, in that particular branch of education. Time was when no man was called educated who had not received a diploma from a college. Now the man skilled in his profession, whatever that may be, is classed among the scientific.

It is the duty of every man to aim high. He, who makes his living by agriculture, should consider himself under obligation to do his work in such a way as will best promote the prosperity and happiness of his family. Whether he believes it or not, he has no right to go on in the old slipshod way, making a bare living out of the soil which holds within its bosom untold wealth for him who seeks it in the right way. He is the worthy name of farmer, who sits idly down, whining about his bad luck, instead of bestirring himself like a man to force fortune's smile.

Of course, it is hard to be disappointed and to have one's expectations cut short by unfavorable seasons; but the remedy is his going right at it again. "What if the sky is overcast?" "The dark appearance will not last; expect a better day!" But, it is folly to expect anything to turn up, unless you make it turn up. The following suggestions from "The Southern Planter," a farm journal published in Richmond, Va., are so practical that I take the liberty of giving them to our Georgia farmers:

"It should always be borne in mind that all the cultivation that can be given other of these crops (wheat and winter oats), except it may be a harrowing of the crop in the spring, which though often omitted, is of great use in helping the crop, must be given before the crop is seeded; hence, the importance of leaving nothing undone that can conduce to a finely broken surface soil and a compact subsoil. Plow deep, harrow and roll frequently. Much good has been found to result in the west from subsoil packing. This is practically a reversion to a practice that has been in use in England ever since we can recollect. The roller used for the purpose in England is one made with two large wheels, having the rolling surface made V-shaped, the point of the V being left about one inch broad. These two wheels are set on an axle, so as to run one on each side of the furrow thrown by the plow, so as to pack the seam between each furrow. A third wheel is set on the other end of the axle to run on the unplowed land. This roller follows the plow, waiting to start until three furrows have been turned. Its use has been found of great benefit, especially when plowing for groves and wheat. The close packing of the seams of the furrow prevents seed from getting down under the furrow, where it rarely germinates or grows, and it tends to a thin growth of the crop. These subsoil packing rollers can be had from Western implement dealers, but we have not seen them advertised in the east. We have used the English form of roller and can speak favorably of it. In its absence, the corrugated iron roller advertised in our columns by a Charlottesville firm, which is practically the same as the roller known in England as a Cambridge roller, can be successfully substituted."

The same writer suggests that after the soil has been packed well, the surface should be finely harrowed. To get rid of the ravages of the Hessian fly he suggests that in sections specially annoyed by this pest, wheat should not be sown until after the flies have been trapped on a strip of wheat seeded early and then

destroyed, thus preventing the eggs from hatching.

About Cotton. As to cotton, see that it is picked as fast as it opens, so that it may not, by remaining on the plants, be stained and ruined by storms. I would suggest that farmers, who are able to hold their cotton, should not be in too big a hurry to get their crop to market and thus cause prices to drop below the point of good profit.

Shelter for Stock. In some portions of Georgia it is necessary to provide shelter for stock during the winter, and, in fact, over a large part of the state stock will thrive better, if thus cared for during our cold spells. Now is a good time to have all barns, sheds and pens thoroughly cleaned, repaired and white-washed, so as to be in the best possible condition for housing your stock comfortably.

Farm Implements. The careful farmer saves himself great loss by looking after his farm implements. This is a good time to see that all those not at this time in use shall be thoroughly cleaned and placed under cover.

O. B. STEVENS,
Com. of Agriculture.

A Beautiful Idea.

Away among the Alleghenies there is a spring so small that an ox could drink it dry on a summer day. It steals its unobtrusive way among the hills till it spreads out in the beautiful Ohio. Thence it stretches away a thousand miles, leaving on its banks more than a thousand villages and cities, and bearing on its bosom more than half a thousand steamboats. Then joining on the Mississippi. It stretches away some twelve hundred miles more, till it falls into the great emblem of eternity. It is one of tributaries of the ocean, which, obedient only to God, shall roll and roar until the angel, with one foot on the sea and the other on the land, shall lift up his hand to heaven and swear that time shall be no longer. So with mortal influence. It is the roll, the rivulet, the ocean boundless and fathomless as eternity.—Ex.

Too Cold.

"Ah," joyfully exclaimed the old fashioned man, whom she had accepted, "I was determined to win you!"

"Yes," she replied, "but I did not think you would stoop so low. 'How?' When?"

"When you passed my lips and kissed my hand."—Philadelphia Press.

Too Late.

One time truth set out to catch a lie.

For many miles and for many years she pursued it.

At last she overtook it.

The lie was firmly established on a tomb stone.

There being a heavy penalty for defacing an epitaph, truth was forced to abandon her efforts.—Baltimore American.

Badly

Shattered Nerves and Weak Heart.

Too Nervous to Sleep or Rest.

Dr. Miles' Heart Cure and Nerve Cured Me.

A shattered nervous system nearly leads to some affection of the heart, especially where the patient's heart is weak from hereditary or other causes. Dr. Miles' Heart Cure is not only a great heart regulator, but it is a blood tonic which speedsily corrects and regulates the heart's action, enriches the blood and improves the circulation. It will build you up just as it did Mr. Crawford, whose letter follows, and greatly improve your general health:

"I have been so greatly benefited by Dr. Miles' Nerve and Heart Cure that I freely recommend them as the best remedies for the diseases they are recommended to cure. When I began taking these medicines I weighed scarcely 120 pounds, my nerves were badly shattered, my heart troubled me a great deal. I had pain in my left arm and my feet, had difficulty in sleeping, my left side, had frequent smothering spells and my heart would flutter and palpitate. I could eat scarcely any kind of food without suffering great distress, and was so restless and nervous that I slept little or not at all. Now I am never bothered with my heart, my nerves are steady as a rock, I sleep well and weigh 165 pounds. I am happy now and am trying to make back the money I spent for doctors who did me no good while I was ill."—T. R. CRAWFORD, Center, Texas.

All druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nerve and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

IF YOU WILL PUT a teaspoonful of Mexican Mustang Liniment into a glass half full of water and with this gargle your throat often it will quickly cure a Sore Throat.

Keep this

fact always fresh in your memory:—
For Cuts, Mashes and all Open Sores, you need only to apply

Mexican Mustang Liniment

a few times and the soreness and inflammation will be conquered and the wounded flesh healed.

To get the best results you should saturate a piece of soft cloth with the liniment and bind it upon the wound as you would a poultice.

25c., 50c. and \$1.00 a bottle.

KEEP AN EYE ON your poultry and at the very first sign of Roup, Scaly Legs, Bumblefoot or other diseases among your fowls use Mexican Mustang Liniment.

Southern Homes and Prospects.

The approach of autumn visible in the changing hues and falling leaves reminds us that the year is nearing its close. It has been thus far a momentous year; in the approach toward peace in the military camps; in the creation of mighty combinations of capital and alliances of industrial forces; in the establishment of innumerable industries, some of them enterprises of practical experiment which may lead to new economic discoveries. Through all the scenes of industrial and migratory activity, one great section of the Union looms upon the national horizon as the first and greatest contributor to national expansion in wealth, development of natural resources, socio-educational advancement, and industrial progressiveness. Everywhere along the many lines of road comprising the Southern Railway System we have noted, from time to time, continuing and increasing activity, accession of operating forces, enlargement of factories and mills, and increase in their numbers; new distributing points for farm products; new areas in cultivation; and generally, improved conditions among all classes. The statistics of the year 1902 promise to show the South phenomenally prosperous; in better condition than ever before to compete with other sections in peaceful and honorable struggle for supremacy in trade. Never before has the South presented so enticing and desirable a field to the immigrant. It still has cheap lands capable, by reasonable treatment, of high production both in quality and quantity; embracing varieties of soil adaptable to many different products. In hundreds of districts along the Southern Railway there are many tracts of such lands which can be converted with little cost of money and labor into beautiful homes, and with an earning capacity, over and above domestic expenses, far in excess of results under like conditions in any other portion of our land. It is indeed an apt time for the home-seeker of the East, and North, and West, to secure these fleeting advantages. Many are doing so; every Southern Railway train is carrying into the bosom of the South sturdy, thrifty, and intelligent yeomen and their families, who will speedily become part and parcel of thriving communities or settlements; and are henceforth to enjoy, probably, the most pleasurable and successful years in their lives.—Ex.

When wheat was \$1.25 per bushel and "you took the sack back home," ye editor got \$2.00 per annum for his paper and some admiring subscriber gave him a Thanksgiving turkey, but now he's in big luck to be presented with a "melon-choffe" September watermelon with a gourd neck and sad expression of countenance.—Dahlgton Citizen.

Several years ago an old man and his wife, passing through Hiawatha, Kan., stopped at the house of Farmer Joyce. The old man was quite sick. The farmer's daughter, Lizzie, then 17 years old, nursed him tenderly for several days, until he was able to resume his journey. A few days ago Miss Joyce received notice that the old man, Hiram Beverly, had died at Seattle, Wash., leaving to her by a fortune estimated at \$1,000,000.

The Calhoun Times says the mules of that county are being bought and shipped to Atlanta to be sold back to the farmers next spring.

How Snakes Spend the Winter.

The snakes are retiring for the winter now but they make little preparation for their long sleep. They simply crawl into holes in the ground, fissures in rocks or beneath the roots of the trees, and there remain in a torpid condition until the warmth of spring awakens them. Sometimes a lot of them gather in a hole some distance from the surface of the ground, roll themselves into one large ball, and thus pass the winter. Such a ball is some times composed of hundreds of snakes so closely interwoven as to be quite difficult to separate.—November Woman's Home Companion.

Sure Plan.

"I saw an advertisement in the paper the other day. It offered to tell for \$2 how a fellow could save one-half of his coal bill this winter." "Did you send for it?" "Yes, sent 'em \$2 and got the information. It was correct, all right. I know how to save half my coal bills now." "How are you going to do it?" "I'll tell you for half what it cost me." "All right, here's your dollar." "They told me to burn wood."

A Peculiar Case.

Alfred Lloyd is the name of a North Georgian, who is remarkable in several respects, and a man who is peculiarly afflicted. During the past week he moved from his home near Hiawasseo to New Holland, and there he has been visited by several people from Gainesville.

While a student at Hiawasseo, at the age of fifteen, his bones began to undergo a peculiar change and his joints became stiff. He was forced to take to his bed, his limbs became utterly useless, he was unable to move them, and for the past forty-five years, he has remained in that position, lying in bed, utterly helpless.—Gainesville News.

Hon. James Weir, of Boone, Ia., is the father of eleven sets of twins, "twenty-two children," as his biographer kindly explains; eleven boys and eleven girls, and all as straight as a trivet and sound as a nut. And twinning is hereditary in the Weir family. The two eldest daughters married twin brothers. "Within twelve hours of each other each of the daughters gave birth to twins, a boy and a girl." So acquired characteristics can be inherited.

A California Reminiscence by N. F. Howard, M. D.

After my visit and stay in the mining section in California for two years and four months I decided to return home, to Dahlonega, Georgia. So on May the 1st, 1884, I left San Francisco on board Steamer Panama. Our trip led across the Pacific ocean to the city of Panama, and thence across the Isthmus and the gulf of Mexico to New Orleans; thence by Mobile, Montgomery, Atlanta, and Dahlonega, about the last day of May. The trip was a very pleasant and successful one to me. Yet, the walk across the Isthmus, half of the way at least, till we met the railroad, then finished half way across, was tiresome, as we passed through a rain storm—and it was also a dangerous section, as often returning Californians, if alone, were carried off to the cabin brakes and robbed by highwaymen, but our company met with no misfortune.

I wish to relate an incident which occurred on my boarding the Steamer, as a passenger. I was informed by those in authority, that there was a blind man on board, or so nearly so that he could not take care of himself. He wanted to make the trip to New Orleans, and made inquiry of me if I would be willing to look after him and see that he was properly cared for on the trip. While I felt this request, if complied with by me, would be one of great responsibility. Yet, I consented to do so as best I could and rejoice to say that the trip was made in perfect safety to myself, and my charge to the city of New Orleans where I bid him farewell, and he made his way to his home in Tennessee. His name was Davidson. I have not heard from him since. He was a man 25 or 30 years of age at that time.

This act of duty performed by me has often been called to mind as well as the promises of the scripture, as stated in several places; "For with the same measure that you mete withal, it shall be measured to you again," and other like scriptures. So this act has been more than fulfilled four fold to me by the kindness of the people of the city of Dahlonega. For the last two years my eye sight has been so imperfect that I have not been able to find my way through the streets and side walks of our place without a guide to pilot me. And though I have not been able to employ a regular pilot yet, strange as it may appear, when I wish to visit any part of the city to see some person, or to attend church, I have succeeded in securing some one near our home, when I have given them notice. If not, often times persons meet me near my home to guide me on my trip. And often persons passing along the side walk near my home call to me willingly, to pilot me on my way. (This kindness shown) me applies to male and female, old and young.

N. F. HOWARD,
Dahlonega, Ga., Nov. 1902.

Hon. James Weir, of Boone, Ia., is the father of eleven sets of twins, "twenty-two children," as his biographer kindly explains; eleven boys and eleven girls, and all as straight as a trivet and sound as a nut. Martin's Ford—2nd Saturday; John Wacaster, J. P. C. R. Gitting, N. P.

Nimblewill—Friday before 4th Sunday; S. M. Grizzle, J. P.; John Cochran, N. P. Forter Springs—1st Saturday; John B. Ricketts, N. P. Shoal Creek—4th Saturday; Geo. Burgess, J. P. H. W. S. Stringer, N. P.

Walton—2nd Saturday; James A. Abercrombie, J. P. W. F. Gillespie, N. P. Yalooda—2nd Saturday; J. B. Caldwell, J. P. John A. Anderson, N. P.

COUNTY OFFICERS.

John Huff, Ordinary. John H. Moore, Clerk. James M. Davis, Sheriff. Frank W. Wimp, Tax Collector. James L. Healan, Tax Receiver. R. M. Bryson, County Surveyor. Joseph B. Brown, Treasurer. D. C. Stow, Coroner.

CITY GOVERNMENT.

R. H. Baker, Mayor. Aldermen: C. H. Jones, J. W. Byrd, O. J. Lilly, J. E. McGee, F. G. Jones, T. F. Jackson. Wm. J. Worley, Clerk. James V. Harrison, Marshal.

RELIGIOUS SERVICES.

Sunday School at 9 o'clock. Methodist—Services every Sunday at 11 and at night. Rev. A. M. Pierce, Pastor. Prayer meeting every Wednesday night. Sunday School at 9 o'clock. Presbyterian—Services only on 2nd and 4th Sundays. D. J. Blackwell, pastor. Sunday School 8 a. m.

MASONIC.

Blue Mountain Lodge No. 88, F. & A. M., meets 1st Tuesday night of each month. R. P. GAILLARD, W. M.

THE NUGGET.

DAHLONEGA, NOV. 20, 1902.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.
Official Organ of both City and County.

President Roosevelt made a search in Mississippi swamps last week for bear.

A bill will be introduced to tax all retail coea cola dealers \$10 each per annum.

Cholera has appeared among the soldiers of the fifth infantry now stationed in the Philippines, causing the death of several.

Gov. Terrell has issued his Thanksgiving proclamation for the 27th, stating that the people of Georgia have cause to be thankful.

There will be but little loitering in Macon by negroes hereafter. Last week six were given 49 lashes each for this violation of the city ordinance.

Senator Skelton being of the opinion that 14 is too young for girls to marry has introduced a bill to make it 16, which is going to cause many girls to fall out with the senator.

Representative Gauden of Brooks, will soon introduce a bill to make the liquor tax in that county \$25,000. The town council is opposed to it and will work against its passage.

It seems that several members of the legislature want to do something about pistol toting and don't know what. Senator McLean wants the carriers to pay a license of five dollars in the state.

The city council of Blue Ridge, Ga., found it unnecessary last week to levy any property tax except for school purposes and to pay for the school lot, having a sufficient amount for all other purposes.

The present members of the legislature favoring the child labor bill had better encourage children to work instead of trying to make a law to keep them from it. Industry is what makes prosperous homes.

In New York last week Mrs. Geo. Vanderbilt's seamstress committed suicide because she failed to get a ball gown done on time. And in Richmond Mrs. Heater ended her life because her husband flirted with another woman.

The bill by Mr. Conas to provide for the placing on trial of all persons using profane language in the presence of ladies without indictment by grand jury, has passed the senate and it is hoped that it will become a law.

A black brute attacked a white girl at Columbus, Ga., last week and she put him to flight with her hair pin. She ought to have had a pair of that legislators' eighteen inch pistols and turned them both loose at him and stopped his speed.

It may be of interest alike to the bird breeder and bird-lovers and the owners of bird lands that the new game law protecting partridges requires the hunter to secure a permit in writing from owners of either posted or unposted land before slaughtering the birds. He can't even hunt legally with the owner himself unless armed with this license.—Eagle.

The recent trial of the parties who were indicted in the United States Court, in North Carolina, for the Amos Owen Cherry Tree Company fraud, the court decided that the defendants and pay \$10,000, to be divided among those whom they defrauded, or go to prison. They decided to pay the money, and now the clerk of the court, at Raleigh, whom the money was paid to, wants to know whose money it is—who was defrauded by this company—so he can pay back their money. Roy T. Bright, for several years pastor of the Baptist church at Murphy, was one of those indicted.—Blue Ridge World.

Mining Notes.

The big shaft at the Copper mine has reached a depth of about 70 feet.

Fate Johnson took a lease on the Standard property on June 6th and in about three months he together with two other men took out fifteen hundred penny-weights of gold. This shows that there is a profit in gold mining when operated by men who know their business.

The company is still operating the Tabloneka mine, and other parties are at work at different places on the property under a lease. Mr. Rex, the superintendent, is very faithful and attentive to his business and we hope he will meet with success.

Mr Packard of the Turkey Hill, got his broken pump repaired some days ago and has been running right along ever since.

Work still continues at the Benning. The ore is conveyed to the big mill, by electricity, keeping some of its stamps running a portion of the time.

Forty hands are engaged on the Gorge dam carrying on the work just as fast as possible.

Another clean up was made down at the Barlow last Saturday, being the third one since Messrs. Sovey, Tregent and Bruce have been running it. The first two were good and the last one was still better. We predicted that these gentlemen would be successful when they commenced.

Gainesville is going to have a mattress factory.

The Presbyterian synd will meet in Brunswick next year.

Something new. A millionaire was sentenced to the penitentiary last week in St. Louis for bribery.

Senator McMichall wants the convicts hired in such a manner that \$90,000 of the realized sum will go to the state schools.

The president of the United States has been camping out in the swamps of Mississippi this week eating "taters" and "possum and drinking 'simmon beer.

Editor Ruiney, who is now in the legislature wants the bullbats protected and has introduced a bill to that effect. What will come next we have no idea. Some people may call this representing a county, but we don't.

Mrs Maud Lilian Berri, an actress of the "Sultan of Sulu" company, swallowed a watch in her sleep recently. This should be a warning to ladies hereafter who snore with their mouths open for fear they might suck some portion of the furniture down their windpipes.

Representative Rainey of Terrell County has prepared a bill for the protection of bull-bats in Georgia, which is to go before the legislature. Why not some one introduce a bill for the extermination of the chinch! A service, never to be forgotten, would be done every housekeeper in Georgia, and the author's name will be made immortal.—Ex.

According to a dispatch to the Daily Mail from Sydney, N. S. W., an extraordinary red dust storm has been experienced in Victoria and New South Wales. Darkness enshrouded the city of Melbourne and balls of fire fell and set fire to several buildings. The people were thrown into a state of panic, as they thought the world was coming to an end. A similar cloud of red dust bug like a pall over the city of Sydney and many inland towns.

Carrollton Free Press: The teachers of Georgia will be interested in a bill that has been introduced in the legislature by the member from Meriwether. It is to establish a loan fund of \$500,000 for the benefit of the teachers of the public schools of the state. The object is to enable the state to pay the teachers promptly every month, as it is now provided for by law, but is not done always because the money is not always on hand when it is due.

Villa Dots.

A thin blue line stretched the entire length of the porch and ranked downward from Captain, to the horn tooter, of the N. G. A. C.

Their anxiety was relaxed when the petite brunette, sallied from within, wearing a woe-begone look in one eye, while the other shone with unusual brilliancy.

It was sad for her to leave, and yet the anticipation of the trip filled her cup to its brim.

Presently the wheels of the rig rattled over the golden reefs of Dahlonega, and holding the ribbons over his steed as black as night, he reined up before the door, while the brilliancy of her eye multiplied.

It would have been well, had the young man from the Barlow, not insisted upon a search of her sari-toga.

At this, however, she spasmed, and almost swooned. "What's in it he asked?"—"Unmentionable," she replied, as the color tinged her cheeks.

Finally all was stowed away in the rig, and she with a whole g'nd face and two bright eyes, jumped gaily in beside the Landlord of the Rookery.

"We, however observed one man with a pocket full of rice, and another with an old shoe, and as the prancing Norman bounded towards the other end of the Railway survey, a shower of rice, and old shoes clouded our vision. Are they married, some one asked? No, but straws tell which way the wind blows, and usually there is more in signs, than in confessions.

A little 12 months-old child of Mr. and Mrs. J. F. Green, of Atlanta, was drowned in a barrel of water the other day while its parents were away from home.

The first issue of The Tablonekan, published by the students of the N. G. A. College, is out this week brim-full of interesting news. It is a monthly publication and is 50 cents per annum.

One senator wants a law to make it a misdemeanor for any one to get drunk on the streets or roads. It will no doubt meet with much opposition especially at this season by those who celebrate the birth of Christ by getting drunk and appearing in public.

Armour's great plant at Sioux City, Ia, covering three and one-half acres of ground, was destroyed by fire the other day. The loss is estimated to be about \$800,000—500 cases of beef, 3,500 dressed hogs, 2,500,000 pounds of lard and many live animals were burned.

Since the last session of the Chestatee Association in this county, and the body refused to appoint Sunday School and other committees for the good of the order, it has caused religious matters to be discussed by a great many people who said but little about it before.

Mr. Bruce has introduced a bill to repeal the law establishing county teachers institutes. This is a good move and we hope it will pass. Do away with these institutes and take the money it requires to hold them and add it to the teachers salaries and it will do more good. There are too much red tape about them.

While other people are having new Irish potatoes we are gathering a second crop of raspberries, causing us to feel very much like trying to reorganize the farmers alliance again. We belonged to the farmers alliance once and served in the capacity of president of a local lodge, and it was very much like Dr. Howard said, we couldn't even plant a peck of potatoes. But there were many just such farmers(?) in the alliance. And we spread it on and was thinking of getting a uniform and a pair of Mexican spurs when a lot of politicians got into the order and bursted the whole thing before we could accomplish our intentions.

Public School Matters.

EDITOR OF NUGGET:

The new office in the Court House intended for the Board of Education is nearing completion, and the friends of education are delighted at the new turn in school affairs. For thirty years, or more, the Board of Education met wherever a handy place could be found, and the commissioner despatched business in a jury room, under great disadvantages. The Library of the Board, which really belongs to the county, will be worth several hundred of dollars in a short time, and the books will be much resorted to for information by students and teachers, as well as the public generally. Its central position will contribute to its usefulness. The commissioner will have stated days to meet teachers and others having business with him.

The beautiful banner, intended to be given to that public school which shows by its reports that it has made the best record from every point of view, has arrived, and will, in December, be awarded. It is in my hands, and is on inspection in my office. The flag is made of superior bunting, and is, in every respect, a beautiful and appropriate addition to a School House. It is the gift of the "Youth's Companion," of Boston, Mass., a newspaper that is now doing a great work for the Public Schools of the South. This flag is a special gift to Lumpkin county, as the editor of the Companion has learned that Lumpkin county has, in three years, erected more and better school houses than any other county in Georgia, except a few wealthy counties like Fulton. Teachers in this county now receive for their services salaries as great as are paid in most of the counties. Possibly, there are a few teachers in large schools who are paid a little more on the daily per cent, provided the attendance is large.

Allow me to say that having good school houses, the board is determined to supply them with the best teachers within reach. We are aware that a few teachers, the past year, have not given satisfaction. These will be dropped, especially after the next examination. I want it distinctly understood that every teacher who expects employment in Lumpkin county will be required to be examined in Lumpkin county.

I hope that your readers will not forget to plant trees on Arbor Day at all our school houses. Arbor Day—Dec. 9th.

W. P. Bruce, Sr., President of the Board.

Up to last Saturday three hundred bills and resolutions had been introduced in the Georgia legislature since it convened.

Mental

Strain Affected General Health.

Doctor's Doses Weakened Stomach.

Dr. Miles' Nerve Cured Me.

Dr. Miles' Restorative Nervebrine rest and sweet sleep to the brain, brain wear out with the cares and anxieties of the sick room. Read the following:
"I have always been healthy with the exception of a touch of rheumatism since my age came on, up to the time my husband's last illness some years ago, I assisted in nursing him nearly three months when he departed this life and the mental strain I think caused my trouble. Aside from extreme nervousness my trouble commenced with sore throat and neuralgia. My physician gave me purgative doses which weakened me very much and my stomach for a time seemed inactive. Mental strain and the dormant condition of my stomach soon told upon my general health. I had little appetite and was soon forced to stay in bed a greater part of the time. Within a week after the time I began taking Dr. Miles' Restorative Nervebrine and Tonic I was up about the house. I continued their use until completely cured. My faith in Dr. Miles' Remedies has been strengthened by experience of other people, our daughter having used Restorative Nervebrine with splendid results in a case of paralysis and a friend to whom I sent a box of the Anti-Fain Pills reports that she has been completely cured of neuralgia by their use. I know of a number of others whom your medicine has helped in a large degree. I wish you continued success."
—Mrs. F. J. CARTER, Dayton, Va.
All druggists sell and guarantee first bottles of Dr. Miles' Remedies. Send for Circular on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

CASH

WILL BUY at J. T. MILLER'S

Closing Out Sale

Arbuckle and 4A roasted coffee @ 11 1/2c per lb.
Good green coffee 3lbs for 25c.
Nice fresh lard 10c per lb.
Nice bacon 13c per lb.
Celestial Pat. flour \$2.48 per 100 lbs.

It's no joke about my selling out. Bring your cash and see. Over \$2,000 worth of goods to close out and cash will get them.

THE NUGGET.

DAHLONEGA, NOV. 20, 1902

Wm. Dowdy of this county, brought some very nice turkeys to town last Saturday, 12 of them weighed 55 pounds.

At the Gorge dam last Saturday John Adams, who resides on Long Branch, was slightly hurt by a log rolling over on his foot.

The Baptist church at this place is still without a pastor, but it is hoped by its members that they will be able to get one soon.

There is no scarlet fever at Mr. J. E. McGee's now and the yellow flag has been removed from his premises by order of the authorities. The quarantine was also raised at Mr. H. D. Gurleys.

That letter found the other morning, from a married woman to a man was sweet enough for the bees to suck had it been a season when they could be out.

Next Monday the contest will take place at the N. G. A. College and it will be determined what student will represent this institution in the next state oratorical contest in Atlanta.

Next Thursday is the day set apart for the horse trader's convention to begin here, and a big crowd is expected, with all kinds and sizes of stock to swap and sell. Everybody invited.

The Pennsylvania Grit published an account of the death of a Mr. J. M. Hutchins recently, who was killed out in the West while driving a team, hauling heavy machinery. The initials are the same as the Hutchins who left here for the West several months ago, and at last accounts he was engaged in this kind of business, but it is not known whether this is the same man or not.

The students of the N. G. A. College are compelled to attend services once each Sunday. Wouldn't it have more effect if those who made this rule would all attend church regularly too? If there are services at only one church it is students have to go whether they are of its faith and order or not. Now, what about all the local trustees and teachers doing likewise. If they don't do it looks too much like a tobacco user whipping his child for doing so.

The Sons of Rest. Do you know where this organization holds forth? For the benefit of strangers we will tell. It is those who sit in the court house yard on the seats and spin yarns. It was given this name by Mr. J. P. Parker many years ago who was a citizen of the place then but now resides in the far West. Here the high and the low, the rich and the poor, while nothing else to do, spend their time in telling jokes and wearing off the blues. It is non partisan in politics.

Parties who drive the mail hack should be very careful not to get on too much liquor while engaged, for it is dangerous, especially when passengers are carried. It would be a very easy matter while a driver is made stupid by the use of mean liquor for some one to cut open the mail bags, take what they wanted and leave out. Then what would become of the driver? He would have no proof that he didn't do it himself and would be sent to the penitentiary. So don't risk it any more.

The heaviest part of the second dynamo for the Chestate power plant reached its destination last Saturday. The other two pieces are lighter and can be delivered this week if the weather is favorable. The stringing of the copper wire was also finished from Gainesville to the plant last week. They are now stringing the telephone wire. Everything is moving on as fast as could be expected except the laying of the track. Not quite a mile was laid in two weeks or more, but this slow work is caused by having to place the cross ties in the city level with the top of the ground.

A lot of trunks at J. F. Moore & Co's of all sizes. Also telegraph valves.

Tom Elrod of Hall county, was bound over by Com. Baker here last week for blockading.

Mr. John Cook has shed his big set of mustache, causing him to look like he was sweet sixteen.

Mr. R. T. Lilly went down to Dawson county Saturday night and spent Sunday with his parents.

Shucking corn, eating slice potato pies and pumpkin custards is the order of the day now in this section.

U. S. Deputy Collector Crockett has been here this week, paying some of the moonshiners an unpleasant visit.

Mr. J. H. Byers, a graduate of the N. G. A. College, has been appointed to a Second Lieutenant in the U. S. Army.

The beautiful warm weather we have had during the fall and winter has been a blessing to all stockless country editors.

If the child labor bill becomes a law it won't effect some of the boys of Dahlonega, as they will neither work or go to school.

The citizens of Dahlonega should not forget to register before the time is up. Remember there are three new councilmen to elect soon.

The horses and the pockets of the parents of the male riders "catch the devil" every Monday when the weather is suitable for horseback riding.

If little John Harrison keeps on he will make a good farmer. He showed us a radish this week raised in the garden weighing nine and a half pounds.

It turns out that Will Wright of Dahlonega, and another negro were gambling down at Gainesville last week and both were fined five dollars a piece and trimmings.

It is said that the young men who was out at Mt. Gillard church Sunday before last while intoxicated, will receive attention at the next term of Lumpkin Superior court.

We are glad to notice that Prof. J. W. West, a graduate of the N. G. A. College was among the lucky number to be called colonel by Gov. Terrell recently when he appointed 90 others.

Mr. E. S. Copeland of this place, closed out his mercantile stock of goods to Mr. John A. Smith of Gainesville, who carried what goods he couldn't sell to the merchant here to Gainesville.

Mr. J. E. McGee has sold out his mercantile business to Mr. M. J. Williams. In the trade, Mr. McGee got Mr. Williams' farm over in Union county, which the owner has rented for next year.

The stewards failing to raise all the \$450 salary of the Methodist minister this year, stated in church last week that \$300 would be all they could pay for one next year. So a cheaper preacher will be with us in a short while.

The early departure of the Gainesville and Dahlonega mail doesn't cause us to receive a letter any sooner from Atlanta than before. It still takes three days to get a reply a letter written to Atlanta, matters not how important it is.

Young men, who you neglect to go to the barber shop during the week and get your shaving done on Sunday are liable to get the barber into trouble, and if a fine is placed on him none of you will be willing to help pay it, will you?

Last Friday night City Marshal Harrison and U. S. Deputy collector Crockett went out on the Dog Hill road and met Jim Hutson who had three jugs—one full of corn and the others partially—of corn juice. As he was not caught in the act of selling his liquor was not molested. Some parties had given it away by going to and from town like bees to bait.

Mrs. Webb is prepared to do sewing of all kinds.

Col. W. A. Charters has returned from his Virginia Trip.

Mr. T. S. Littlefield is getting his dwelling ready for occupancy and will likely take his Christmas turkey in it.

All persons indebted to me by note or account will find their notes and accounts in the hands of R. M. Bryson.

J. H. McKee.

ESTRAYED.—A small ten-months-old bull yearling, wearing a small bell with a cloth collar, and a Jersey stripe on its jaw. Please notify William Vaughn at Dahlonega of its whereabouts. 3t.

Mr. T. T. Harris, formerly of Dahlonega, who has been money clerk at the express office at Gainesville for some time, has been appointed agent for the Southern Express Co. at Salisbury, N. C.

The North Georgia Electric Co., has purchased from Mr. Kedar Wilson his shoals on the Chattahoochee river. The company does not contemplate the erection of a dam there for the present, but has it for a reserve power for future development.

Although we were all scared during the dry summer for fear the crops would be cut short, that people would have to depend upon other sections for their supplies, there seems to be plenty. One farmer told us Thursday that he made more corn than he did last year on less ground. His was most all bottom land.

Uncle Alfred Herrington, residing near Porter, saw one of those big panthers which caused so much alarm in that section last fall and winter, even climbing up on one man's house. He was dehorning some cattle and the animal smelt the blood doubtless is the cause of its appearance at his premises the other day.

Dr. Palmour, the Dawson county dentist, has been here his limited time, 20 days, but will remain the rest of the week. He has been busy, and as usual, given satisfaction to all. The citizens would like to have the doctor move here and have asked him to do so, but he has not yet consented to do it. He prefers remaining on the farm.

It was intended to have an old fashioned candy pulling last week to raise money to buy a new organ for the Methodist church, but it was postponed. What is needed in all the churches most now is more religion and fewer organs. Let a church be filled with Christians and they will furnish sweet music than half a dozen costly organs.

A wedding was on the program Thursday night out in the Western portion of the county. We guess it took place, for the licenses were procured, the man in the notion to marry, and the girl willing and a squire convenient. The contracting parties were Miss Sallie Lingerfelt and Mr. Tom Langford. The father of the girl, Mr. Mike Lingerfelt was not willing and the girl had to be stolen.

The new road, recommended to be made across Findley Hill, by the last grand jury, was surveyed last week. That is, the portion outside of the town limits, and found to be practicable provided the county and town has surplus money to do it. That portion of it beyond the town limits will cost about two hundred dollars. Judge Huff will not do the work until some of the largest tax payers are consulted.

Some publishers of newspapers try to make you believe that the United States law forces a man to pay for a paper when he takes it out of the office, and that he can't stop it until all arrears are paid. This is all bosh. Under the head of general rules of the postal guide, 1900, section 535, it reads as follows: "There is nothing in the Postal Laws or Regulations concerning the liability of a subscriber for the subscription price of a newspaper or periodical."

The first pork of the season was brought in yesterday. Eight cents was the price.

The tax collector is winding up his second round collecting taxes this week. He will visit you again and then close his books on the 20th of December, the time fixed by law.

Mr. J. F. Castleberry gathered nearly a half bushel of new Irish potatoes last Monday. What a great country this is, when we can occasionally make two crops of vegetables.

U. S. Collector Crockett and Deputy Marshal Grizzle visited two illicit distilleries in the edge of Dawson county Saturday but found no one at home to entertain them.

It is not likely that the new road across the Findley Ridge will be built soon, as the present city council does not propose to do any of the work and Judge Huff will not work any on it within the corporate limits.

Every kind of country produce has been bringing a good price in Dahlonega except sweet potatoes. Last Monday corn brought 48 cents per bushel cash, fodder \$1.25 per hundred and onions \$1.00 per bushel.

Mr. J. P. Hammond, a college student from Griffin, received a telegram Monday stating that his mother died Sunday night. He left immediately for his home. We sympathize with the young man, for when one loses their mother they lose their dearest friend.

A few nice photo frames left 10 to 25c. Fruit jar openers 10c. Shade strips with fixtures attached 5c. Fleeced lined over shoes for men and women. Some nice umbrellas 34c. to \$1.88. New South Georgia syrup will be on sale next Monday.

B. R. MEADERS & SONS.

There is a young man in Dahlonega who wears a corset and pads his legs in order to give them the proper size and shape. Sometimes the padding becomes disarranged, causing a big lump on his leg like a knot on a tree. The Creator failing to make a good job of him causes all this trouble.

Will Ward was arrested and placed in jail last Sunday night. He is charged with malicious mischief, the grand jury having returned the bill at the last term of Lumpkin Superior Court. It seems that Will had amused himself by rolling off or destroying one of Capt. Woodward's mill pulleys.

Some people in this section are always crying out hard times. There are many other sections in a much worse condition than this. Take up most any paper and you will see numbers of people's property advertised to be sold for debt. But little of this occurs here; some months none at all. This proves that we are in a better condition here than we think we are, and are too easy to complain.

Although but little is said about it, there is an enterprise in Lumpkin that is of vast importance to the people of this county and those living adjoining it. It is the nursery of Fitts & Brooksher, located in Nimbelsville district, only some ten or twelve miles west of Dahlonega. This is no advertisement. We mention it simply to show what can be done in this mountain section when properly taken hold of. Thousands of fruit trees have been sold by them since its establishment only a few years ago. The farmers can supply their orchards right here at home with fine trees, that are adapted to the section and bear well. This season these gentlemen have sold from eight to ten thousand fruit trees at fair prices. Their fruit trees are also finding a market in other sections. Only a few days since the inspector and Com. of Agriculture Stevens came up on an official visit to the nursery and the trees were so healthy and fine that they gave an order for several hundred to be shipped down the country to their farms.

Mr. Bailey Cox of Cleveland, was in the city yesterday.

A number of our citizens have lost the finest cows they had.

Mr. A. J. Anderson has been appointed postmaster at Wier.

Mr. J. M. Brooksher has gone into the mercantile business again.

Some gentlemen are here looking over certain mining property.

Mr. Lewis Ricketts of Atlanta, was up on a visit to his relatives here this week.

Mr. Charley Coffey of Atlanta, a brother of Mr. H. L. Coffey here, is in Dahlonega.

Mr. J. E. McGee's little girl, next to the baby, is seriously sick with pneumonia.

It rained a little here last Monday but not enough to do the mining business any good.

The legislature committee has recommended an appropriation of \$10,000 for the N. G. A. College.

There will be no services at the Presbyterian church here next Sunday but will be on the 5th Sunday.

Jess Forest, who left Dahlonega 23 years ago, is here on a visit. Many changes have taken place since then.

All the merchants of Dahlonega have signed a petition agreeing to close up their stores on Thanksgiving day but those of one firm.

Mr. N. P. Pratt of the Copper Mine was in the city yesterday. He has his residence completed at the mine and will soon move into it.

Postmaster Tate received news yesterday that his sister, Mrs. Stover, is seriously sick in Tennessee and he may leave today or tomorrow.

Bruce Kendall and Milton Swancy were caught in an illicit distillery and bound over this week. Kendall failed to give bond and Marshal Grizzle carried him to Atlanta.

Talk about hard times. Many of you don't know anything about them. Uncle Charlie, an old blind negro residing in Dahlonega, saw wood and has to do his own cooking, and you never hear him grumble half as much as many people having good eye sight, plenty to eat and nothing to do.

Rev. Mr. Pierce, who has served the Methodist church here for the past year, left for the conference in Atlanta last Monday at noon. Most all the people of Dahlonega would like to have him returned even if he did speak words in the pulpit sometimes that caused the drinking and cursing members to turn pale and blush with shame at their own conduct.

Mr. W. J. Avery, an old and highly respectable citizen of this county, died last Monday afternoon at 4 o'clock, and was buried the following day at Salem cemetery by the Masonic Fraternity of which he had been a member in good standing for many years. His age was 86. Mr. Avery came to this section from Merriweather county some twenty or thirty years ago.

The best thing those people could do who are fond of music would be to raise enough money to secure the services of some good singing teacher and let him come here and teach the people how to sing. They have used three or four hymns at the churches so long that the leaves are worn out at the pages containing them almost like a little school boys speller at his A B Cs.

Mercer college opposes the annual state oratorical contests held in Atlanta and wants a change made so as to have them held at each place where colleges are located belonging to it. The Dahlonega, published at Dahlonega, opposes it and so do we. There are not accommodations at other places like Atlanta, and it would be impossible for Dahlonega to handle the people wishing to attend them without railroad facilities.

Apples are becoming more plentiful here within the past few days.

Jimie Walker, residing a few miles out in the country, is down with typhoid fever.

Miss Anderson, sister of Mr. W. Anderson, of the Calhoun Mine, after a two days visit to the Misses Castleberry, left for her home at Atlanta, Sunday. Many old and new friends, regret the termination of her stay, as through her charming personality and genial manner she has added much to the pleasure of others while here.

A committee of ladies met last Monday afternoon for the purpose of arranging to give the paragon its annual scrubbing and touching up. Also to "put the big pot in the little one," and have the new minister a good nice warm supper the first evening he appears, and make him think that this is a land that flows with milk and honey.

RHEUMATISM CURED AT LAST.

Good News For All Who Suffer With Rheumatism Free.

To all who suffer with Rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on Rheumatism ever published. No matter what your form of Rheumatism is, whether acute, chronic, muscular, inflammatory, deformant, sciatic, neuralgia, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "cure cures" you have tried—I want you to write to me and let me tell you how mother was cured. I am neither a Doctor nor a Professor—simply a plain man of business—but I have a CURE for Rheumatism, and I want to tell everyone who suffers with Rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however apparently beyond the reach of cure, will write to me this day and I will send you by return mail this work of mine. I repeat especially to the "chronically ill" who are wearied and discouraged with "doctoring" and to those who have been cast aside as "incurable." All you have thought about Rheumatism may be wrong. Let me tell you our experience. Surely, if you have Rheumatism or have a suffering friend, it will pay you to investigate my offer, anyway, and prove for yourself these claims I make. Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have any friends suffering with Rheumatism no matter where located, send them a copy of mine, and I will mail them a copy. My address is VICTOR RAINBOLD, Bloomfield, Ind.

Slaughter Sale OF Clothing.

My entire stock of clothing, consisting of Mens, Youths and Boys 2 piece suits at absolute cost for the next 60 days. This is no catch ad. I am going out of the clothing business and if you are looking for bargains, the lowest you have ever seen, you will find them at

H. D. GURLEYS. Call at once.

All Styles OF Shoes & Hats

Reduced prices from 10 to 20 per cent. Dress goods, notions and gents furnishings, cheaper by 10 per cent than any house in the city. A few nickel Rochester lamps complete at \$1.50 to \$1.75 at H. D. GURLEYS.

TAKE NOTICE. All persons who hold the undersigned will find their notes and accounts in the hands of Wm. J. Worley, Esq., for collection. So please come forward and settle the same, as I am needing the money. N. F. HOWARD, M. D. Nov. 6th, 1902.

RUTS

The walking sick, what
 a crowd of them there are:
 Persons who are thin and
 weak but not sick enough
 to go to bed.

"Chronic cases" that's
 what the doctors call them,
 which in common English
 means—long sickness.

To stop the continued
 loss of flesh they need
 Scott's Emulsion. For the
 feeling of weakness they
 need Scott's Emulsion.

It makes new flesh and
 gives new life to the weak
 system.

Scott's Emulsion gets
 thin and weak persons out
 of the rut. It makes new,
 rich blood, strengthens the
 nerves and gives appetite
 for ordinary food.

Scott's Emulsion can be
 taken as long as sickness
 lasts and do good all the
 time.

There's new strength
 and flesh in every dose.

We will be glad
 to send you a few
 doses free.

Remember that this picture is
 the face of a fish, it is on the
 wrapper of every bottle of
 Scott's Emulsion.

Some Good Advice.

The following good advice clip-
 ped from an exchange, is well
 worth reading, and some of these
 we know would do well to paste it
 in their hats. Read: "If your seat
 is hard to sit upon, stand up; if a
 rock rises up before you roll it
 away or climb over it; if you want
 money, earn it; if you wish for
 confidence, prove yourself worthy
 of it; it takes longer to skin an
 elephant than a mouse, but the
 skin is worth something. Don't be
 content to do what another has
 done; surpass it. Deserve success
 and it will come. The boy is not
 born a man. The sun does not
 rise like a rocket or go down like
 a bullet fired from a gun; slowly,
 but surely, it makes its round and
 never tires. It is as easy to be a
 wheelhorse. If the job be long,
 the pay will be greater, if the task
 be hard, the more competent you
 must be to do it.

Silk Culture in Georgia.

When the colony of Georgia was
 first founded, it was intended to make
 it a great agricultural country; but
 when the colony was founded, the
 heavy staple came prominently to the
 front and King Cotton, mounting his
 throne, for a long time ruled Georgia
 with despotic sway, supplanting all
 other industries. But the time has
 come for the old King to take a lower
 place and share with other industries
 in promoting the strength and great-
 ness of our noble Commonwealth.
 Efforts are being made to arouse
 once more an interest among the
 people of Georgia in silk culture. North
 Carolina has in late years made com-
 progress on this line. Thinking that
 there is something of promise to Geor-
 gia in the silk industry, we publish
 the following correspondence:
 "Tallah, Fla., Ga., Oct. 13, 1902.
 Mr. R. F. Wright, (Asst. Com. Dept.
 Agriculture) Atlanta, Ga.:
 Dear Sir:

Referring to our conversation of
 recent date, I beg leave herewith to
 enclose you a letter referring to the
 organization of a "Silk Culture
 League," which you may print in your
 monthly talks through the various
 papers that you control.

I also beg leave to enclose list of
 names to whom I have addressed a let-
 ter similar to the one sent to you Oct.
 5th.

I will be glad to have you make me
 a list of about 25 to 50 prominent men
 and women throughout the state to
 whom I would like to address an invita-
 tion to assist in the formation of the
 proposed "Silk Culture League."

Thanking you for many past favors,
 I am, your truly, Louis B. Magid.

Tallah, Fla., Ga., Oct. 5, 1902.
 To the Editor:

I note in the press with much inter-
 est that certain people of Georgia are
 making worthy efforts to honor Gen-
 eral James Baird Oglesby with the
 erection of a monument to his memory.
 This noble work is commendable
 within itself.

One hundred and sixty-eight years
 ago when General Oglesby first set-
 tled the colony of Georgia, he encour-
 aged and introduced silk raising.
 The press has given considerable
 attention to my recent efforts to en-
 courage the people of Georgia to re-
 vive and reintroduce the raising of
 silk. Since the commencement of my
 actual operations in the introduction
 of silken raising in this vicinity, I am
 the recipient of a great number of let-
 ters from people throughout the state
 and sister states with the general in-
 quiry, "How should we begin silk
 raising, a leading matter with them
 being to improve their present condi-
 tions and circumstances."

Many of the writers tell me that
 they are widows and some are in ill
 health or other imperfect surround-
 ings which prevent them from earning
 an honest living. Silk raising is a
 simple and light industry, lasting only
 six weeks, but most people are ignor-
 ant of the art of producing the raw
 silk. Silk raising in Georgia would
 diversify the products of the farm,
 and afford to many an acceptable in-
 crease of income.

I beg to offer the following sugges-
 tions to the people of our state, espe-
 cially to the more prosperous people
 who have the interests of the state at
 heart and are able to assist those who
 are not so fortunate, especially those
 people living in the rural districts
 who need some simple occupation, for
 instance, widows, orphans and even old
 men who are too feeble to do any or-
 dinary field work. I will gladly answer
 all letters and give all the information
 at my command, as it is partly for this
 purpose that I have located here, to
 demonstrate the art of silk raising to
 the people of Georgia.

We have the interest of the farming
 people of our state at heart, including
 the commission and assistant com-
 missioner of the agricultural depart-
 ment of the State. These have all
 assured me of their hearty co-opera-
 tion. I shall be glad to hear more
 from Georgians on the subject and re-
 ceive such suggestions as will aid our
 cooperation will help to organize this
 proposed "Silk Culture League of
 Georgia."

Such an organization to revive silk
 culture in Georgia which was the
 dream of General Oglesby, would be
 a second monument to the Gen-
 eral's memory. Respectfully,
 Louis B. Magid.

The Department of Agriculture has
 for many months been in correspon-
 dence with Mr. Magid on this impor-
 tant question and not only has given
 him all possible encouragement, but
 will continue to do so. Through the
 agency of this department Mr. Magid
 was present at the meeting in Nash-
 ville of the Agricultural Commission of
 the Southern States, and made before
 them an earnest plea for sericulture
 in the South.

Hon. R. J. Redding, director of the
 Experiment Station, in a recent letter
 to Mr. Stevens, says:
 "It strikes me that it may be well
 for us to take up at this station a
 line of experimental work in Silk Cul-
 ture, and if you, as Commissioner of
 Agriculture, will handle the commar-
 dial end of the proposition, that is, be-
 looking to the supply of mulberry
 trees and silk worm eggs, I will attend
 to the experimental part. What do
 you think of it? * * * I can apply for
 100 trees on the terms mentioned in
 Mr. McCarthy's circular, and have
 them ready for operations when they
 become large enough."

By decision of Mr. McCarthy re-
 ferred to by Mr. Redding is as fol-
 lows:

Free Mulberry Trees for Silk Growers!
 The first season's experience in silk
 growing in North Carolina has proved
 a most gratifying success. It has
 demonstrated that the women and chil-
 dren of the State may, by light and in-
 teresting work during six weeks of
 early summer, without interfering
 seriously with their ordinary du-
 ties, at least \$20. Those who can de-
 vote more time to the work may earn
 much more.

To place silk growing upon a perma-
 nent basis we must increase the out-
 put of silk cocoons to a volume which
 will attract to the State silk reeling
 and weaving, thus creating a market
 for the product of the silk worm.

The first and most necessary step
 is to increase the available supply of
 silkworm food. We must plant mul-
 berry trees until each farm suited for
 this kind of work has at least 100
 trees. Every farm having dry soil,
 lying between Goldsboro and States-
 ville or Asheville, can successfully
 grow silk.

In order to encourage the planter
 of the mulberry, the State Department
 of Agriculture will distribute among
 the farmers of North Carolina in lots
 of 50 and 100 rooted seedling trees of
 the varieties best suited for feeding
 the silk worm. Not more than 100
 will be sent to one person. Those
 who want more will be supplied at cost
 prices. We do not recommend the
 planting of more than 100 trees by any
 farmer. Recipients of trees will be
 required to pay postage or expressage
 at the rate of 1 cent per tree. This
 must be enclosed with application.

Trees will be delivered during No-
 vember, which is the best month for
 planting in this State. Full directions
 for planting and caring for the
 trees will be sent to each applicant.

Silk growing will prove a valuable
 nature study, an educational aid in
 schools, and is well worth the at-
 tention of all who have supervision
 over educational institutions. It is
 raising, a leading matter with them
 being to improve their present condi-
 tions and circumstances."

Applications will be filled in the or-
 der of reception. Address, General
 McCarthy, Biologist, N. C. Department
 of Agriculture, Raleigh, N. C.

In "Georgia Historical and Industrial"
 published by this department in the
 fall of 1901, is found the following
 paragraph (page 347):
 "Silk factories—An industry which
 in the last few years has grown rapidly
 in the United States is the manu-
 facture of silk. In 1890 there were
 718,360 spindles and 29,822 looms. In
 1900 there were 1,426,245 spindles and
 48,246 looms. It is mostly confined to
 the Northern States; but Virginia and
 North Carolina have entered this field,
 each with 20,000 spindles. North
 Carolina has also 1,465 looms, and Vir-
 ginia 350.
 "Although Georgia was originally in-
 tended to be a silkworm country, at
 this time the State is taking no part
 in this business. Yet the founders
 of the colony of Georgia thought that
 the chief industry would be the pro-
 duction of raw silk. General Ogle-
 sby in speaking of the possibility
 of the colony said: 'It must be a
 weak hand indeed, that cannot earn
 bread where silk worms and white
 mulberry trees are so plentiful.' Perhaps
 at some future day Georgia will re-
 alize in this industry the expectations
 of its founders."
 The Department of Agriculture of
 Georgia heartily indorses every effort
 to introduce a new industry into our
 State.

Dr. Howard Writes About Railroads.

DAHLONEGA, GA.,

Nov. 19, 1902.

EDITOR OF NUGGET:

A few days ago a friend of ours remarked that very likely, in fifty years from today, Gainesville would be as large a city as Atlanta is at this time. In our opinion, we thought, if she ever became half as large she would have to adopt new methods. Over twenty-five years Atlanta has been the capital of the state of Georgia and public buildings both of the state and United States have been erected there which have enhanced both the wealth and greatness of the city, and these other cities in the state may not expect to have. But we wish to state the chief source and means of the wealth and growth of Atlanta is her railroad system.

When the first railroad was built in the state of Georgia it wanted to go for head-quarters at a near by town. Her request was rejected, but the little village of Milledgeville, now the great city of Atlanta, said to the railroad authorities, "Come and stop with us and make our village your headquarters," and so the offer was accepted.

And so this has been the settled policy with the people of the city of Atlanta up to the present day. And now railroads are built from nearly every part of the state to this great city; and these railroads are the chief source of the city's wealth. Very different from this are and have been the methods of the Gainesville people. They seem to not want any other railroad, especially on the north side of the railroad already passing through the city. I will ask this question: Would not three railroads built fifteen or twenty years ago from Gainesville, pointing towards the Blue Ridge at different points, given more wealth and enlargement to the city of Gainesville, ten to one, than all the trade and traffic that road teams have done? We hope the present railroad will be built from Gainesville to Dahlonega at an early date and we will see and rejoice in the prosperity of Gainesville. Don't wait until Atlanta builds a railroad to Dahlonega, and from Dahlonega to Cornelia and have you in the condition that Jeff Davis had the Mexican army under his control by the military method of the V, by which he might, and did destroy them. But in your case the letter V is inverted.

N. F. HOWARD.

P. S.—In my opinion there will not be one county in ten in the state of Georgia but what will have railroad facilities.

Don't Praise Horse Too Soon.

"Mr. Johnson, that is a fine horse you have there; what is he worth?"

"Three hundred and fifty dollars."

"No, not so much as that?"

"Yes every cent of it, and another fifty on top of it."

"Are you sure?"

"Yes, I'll swear to it."

"All right."

"What are you so darned inquisitive for?"

"Merely for assessing purposes. I am the assessor for this ward, and only wanted to know what you rated your nag at."

"Oh for the purpose of sale, he's worth every cent of it, but for tax he's not worth more than twenty-five dollars."—Ex.

Impracticable.

The proposition of Governor Terrell to establish an agricultural college in every congressional district in this state is obviously impracticable. The governor declares that with buildings and grounds donated by towns in each district the expense of maintaining the college would be only \$8,000 each or \$33,000 for the state (which amount he proposes to take from a source which now provides funds for the common schools) is certainly much below the mark unless pupils are charged heavily for tuition fees in which event the colleges would be a failure for want of patronage. The state already has the greatest abundance of higher institutions of learning which are supported from the public treasury. What she needs now is an efficient common school system, and instead of withdrawing anything from the public treasury, it should be strengthened by giving it, if need be, the money now appropriated for the colleges. The colleges are for the few, the schools are for the many. If the plan of Governor Terrell were adopted (which it will not be) perhaps one young person out of every seventy-five or a hundred in each congressional district would patronize the college in that district.—Marietta Journal.

A Costly Hanging

When Roscoe Conkling first began the practice of law in New York, says the Philadelphia Ledger, he was engaged for the defense in an important murder case. He worked very hard, not only for the fee, which he needed badly, but for a reputation which he had to make. Despite his energetic and brilliant effort, however, the case went against him, and his client was hanged. Later, when he presented his bill to the man's family, they refused to pay it, on the ground that it was excessive. He took the bill to Charles O'Connor, the great criminal lawyer, asking him to pass judgment as to equity of his charges.

O'Connor scanned the account very closely and then, turning to Conkling very gravely, he delivered himself thus:

"Well, Conkling, taking in consideration the enormous amount of energy and time you have devoted to this case, the charges reasonable; but see here, Conkling, don't you think the man could have been hanged for less money than that?"

His Parting Benediction.

A country minister in a certain locality took permanent leave of his congregation in the following pathetic manner:

"Brothers and sisters, I come to say good-by. I don't think God loves this church, because none of you die. I don't think you love one another, because I never marry any of you. I don't think you love me, because you have never paid my salary; your donations are muddy fruit and wormy apples; and by their fruits you shall know them. Brothers, I am going away to a better place. I have been called to chaplain of a penitentiary, and may the Lord have mercy on your souls. Good-by!"

—His Mother: Get up Tommy. You know the early bird catches the worm.

Tommy: Well, I ain't going fishing today.—Detroit Free Press.

Mind Your Own Business.

An old custom once prevailed in a remote place of giving a clock to any one who would truthfully swear that he had minded his own business alone for a year and a day and had not meddled with his neighbors. Many came, but few if any gained the prize, which was more difficult to win than the Dunmow flitch of bacon. Though they swore on the four gospels and held out their hands in certain hope, some hitch was sure to be found somewhere, and for all their asseverations the clock remained stationary on the shelf, no one being able to prove his abstinence from meddling for interference in things not any way concerning himself.

At last a young man came with a perfectly clear record, and the clock seemed as if it was at last about to change owners. Then said the custodian, "Oh, a young man was here yesterday and made mighty sure he was going to have the clock, but he didn't." "And why didn't he get it?" "What's that to you?" snapped the custodian. "That's not your business, business, and—you don't get the clock."

Call a Halt.

A few years ago when the supreme court was increased it was with the pledge that it would meet all requirements of Georgia litigation, but seems to have only whetted the legal appetite for more of fee, and there is a constant wail of over-worked judges, says the Madison Advertiser. Now, we have before the legislature another bill creating a lesser branch of this judiciary, as a relief to the supreme court. There is a well founded theory that any sort of a sign board will attract customers and so it will be with this new court, but question is does Georgia, staggering under its weight of government expense, need such a court? The legal mind of Georgia seems to be frightened with schemes for new courts, for cities, counties and what not. And it is all to relieve over-work of court officers, while there is no thought of the great and never ending struggles in all other lines of business, where never get rest. It is time to stop the scheme. There is too much of it.—Marietta Journal.

A Substitute.

"Father," said the young man, according to the Chicago Chronicle, "I should like to try one of these systems of physical exercise that are advertised in the papers. They are cheap, and you don't need any apparatus."

"I will furnish you with one, my son, that I tried with great success when I was a young man, and I'll warrant it to be as good as any in the market."

"Could I take it here at home?"

"Yes; that is one of its chief merits."

"Any apparatus necessary?"

"Yes, but it's quite simple I'll furnish it."

"Can I take it in my room?"

"No, you can take it out at the woodpile. You will find the apparatus there, all ready for you, my son."

A Massachusetts woman died and at her request, a pet cat was killed and buried with her in the same coffin. A minister performed the funeral service over both, much to the surprise of mourners. This is a return to savage rites.—Marietta Journal.

Selling Out At Cost

Having decided to sell out my entire stock of goods by the first of January next, I have put the prices of all articles, consisting of everything kept in a general mercantile establishment, at and below cost. If you want sure enough bargains now is your chance. Those owing me, either by note or account, will please come forward and settle at once. J. T. MILLER. Auraria, Ga.

Chestoate—4th Saturday, W. A. White, J. P.

Dahlonega—2nd Friday, W. J. Worley, J. P. G. H. McGuire, N. P.

Davis—1st Friday—J. C. Higgins, J. P. C. R. Odom, N. P.

Frog Town—2nd Saturday; Geo. B. White, J. P. W. M. Grindle, N. P.

Hightower—2nd Saturday; H. T. Lee, J. P. J. N. Satterfield, N. P.

Jones' Creek—Saturday before 3rd Sunday; Miles Berry, N. P.

Mill Creek—2nd Saturday; H. Chambers, J. P. Ed. Corn, N. P.

Martin's Ford—2nd Saturday; John W. Wadsworth, J. P. S. C. R. Gitting, N. P.

Nimblewill—Friday before 4th Sunday; S. M. Grizzle, J. P. John Cochran, N. P.

Porter Springs—1st Saturday, John B. Ricketts, N. P.

Shoal Creek—4th Saturday; Geo. Barges, J. P. H. W. S. Stringer, N. P.

Wahoo—2nd Saturday, James A. Abner, J. P. W. E. Gillespie, N. P.

Yahoola—2nd Saturday; J. B. Caldwell, J. P. John A. Anderson, N. P.

COUNTY OFFICERS.

John Huff, Ordinary.

John H. Moore, Clerk.

James M. Davis, Sheriff.

Frank W. Wimp, Tax Collector.

James L. Healan, Tax Receiver.

R. M. Bryson, County Surveyor.

Joseph B. Brown, Treasurer.

D. C. Stow, Coroner.

CITY GOVERNMENT.

R. H. Baker, Mayor.

Aldermen: C. H. Jones, J. W. Boyd, O. J. Lilly, J. E. McGee, F. G. Jones, T. P. Jackson.

Wm. J. Worley, Clerk.

James V. Harbison, Marshal.

RELIGIOUS SERVICES.

Sunday School at 9 o'clock.

Methodist—Services every Sunday at 11 and at night, Rev. A. M. Pierce, Pastor. Prayer meeting every Wednesday night.

Sunday School at 9 o'clock.

Presbyterian—Services only on 2nd and 4th Sundays.

D. J. Blackwell, pastor.

Sunday School 9 a. m.

MASONIC.

Blue Mountain Lodge No. 38, F. & A. M., meets 1st Tuesday night of each month.

R. P. GALLIARD, W. M.

THE NUGGET.

DAHLONEGA, NOV. 27, 1902.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Official Organ of both City and County.

The legislature is taking steps to stop the cocaine habit.

The free pass bill, which was killed in the house last week, has been reconsidered.

The Democrats made a net gain of 26 in the congressional elections but the republicans will still control the House.

The bill of Mr. Bruce of Lumpkin, to repeal the law establishing county teachers institutes has received a favorable report by the committee.

Not a single Populist was elected to the national house of Representatives in the recent election. Not a populist will remain in the Senate after March the 4 next.

The Signal has a democratic, republican and grammar department and is now proposing to take rats and cats on subscription in order to start a Chinese department.

Judge Russel has sentenced Thad Boyd, Jr., the slayer of his brother-in-law, Henry Oliver, to be hanged on Dec. 6 at Athens. A new trial has been asked for the defendant.

It has been discovered that \$120,000 belonging to the school fund has been paid out of the state treasury for general purposes, although the law forbids it, and an investigation is being made.

The house penitentiary committee last week unanimously recommended the passage of Mr. Wolborn's bill providing for the pardon of life convicts after serving 20 years during good behavior.

A mile-a-minute trolley car has made its appearance in Ohio. If the proposed line was completed from Dahlonega to Atlanta and run at this rate couldn't we get there in a hurry? We will be satisfied with even a slower one.

The police of Philadelphia recently arrested 400 girls and five men. There is positive evidence of the existence of a syndicate in Germany and branches in Philadelphia and New York, whose business it is to supply young girls to those cities for immoral purposes.

An elephant killed its keeper at Valdosta one night last week. The man was intoxicated and sitting on its head when he fell off and was crushed to death by the elephant. This shows that keeper had better keep sober while trying to control a five ton elephant.

The child labor bill was to have come up before the house yesterday and we expect it passed, because a strong fight is being made against children being worked in cotton mills under 12 years of age and 12 hours a day. It keeps them cramped down and makes dwarfs out of them.

The appropriation committee has practically completed its labors and has voted to appropriate \$45,000 for pensions for the coming year, \$14,000 in excess for pensions last year. The new appropriation contemplates \$185,000 for disabled veterans, \$985,000 for indigent veterans, \$185,000 for widows of soldiers who died during the war, and \$90,000 for indigent widows.

Last week while the deputy sheriff of Ware county was on his way to the lunatic asylum with a negro he took the prisoner to wait until he could go and get a drink but the negro failed to obey orders and disappeared, leaving the officer in distress. The lunatic went on to Milledgeville and wrote back to the ordinary of Ware that he had left the sheriff at Macon and for him to send the proper papers, which was done.

The Outgoing Council.

As stated in a previous issue the terms of Aldermen Jones, Jackson and Lilly expire the first of January next and an election will soon be held for the purpose of filling their places. They have made good servants of the people, and could be easily re-elected if they would consent for their names to be used again. But this neither one will do. They are business men who, together with the rest of the body, have performed their duties well, just as if they were receiving a thousand dollars annually each and yet they do not get a copper, as the law allows them nothing for their services, matters not how valuable they are. When these gentlemen went into office two years ago the city was more than one hundred dollars in debt. The tax rate was high, being 70 cents on the hundred. They reduced it last year to 78, and by economical management, paid off all the indebtedness of the town and brought the rate down to 65 this year, and had it not been for the assistance given the sick, would have had enough money to run the town until next July. Notwithstanding their faithful and efficient work the little editor of the Signal came out in a half column editorial last week criticizing their actions and wanted men elected who would reduce the marshals salary and run the city cheaper generally. This is not his object. He has an ill feeling against Marshal Harrison because he discharged his duty in handling him when he violated the law just the same as he did others, and the little fellow wants to take his spite out of the aldermen because they pay no more attention to him than if he was a ten-year-old boy. The little babe returns less than five hundred dollars worth of taxable property and the rate of 65 cents couldn't hurt him much. Talking about taking money from the treasury. Oh how ungrateful he is! He ought to feel kind towards the city officials for taking money from the treasury and rendering assistance to those that are near and should be dear to him. This is the thanks they get.

The Signal and its Politics. Week before last we stated in the Nugget that the Signal was run by a republican and soft shell democrat, which caused Mr. Coffey to try to whitewash its politics with his republican brush in the following manner last week: "As several false reports have occurred in the Signal in regard to my service in the Signal office, it becomes my duty, in justice to the editor of the Signal, to say that I am only an employee here and am in no way connected with the policy of the paper. As to its editor's politics I can truthfully say, as all his readers well know, that his paper has always been found battling for the democratic party in time of need—a thing I, a died-in-the-wool republican, regret very much."

A few months ago when Mr. Coffey entered the Signal office, this is what its editor said in that paper: "Henry L. Coffey will act as reporter of the Signal, typographer, solicitor and such other work as is to the best interest of the Signal from week to week as the patronage will justify."

Now who has told the lie? The Signal's politics are like some old women's religion. After cursing and abusing their husbands all the week they will wash their necks and put on clean dresses on Sunday, rub their faces so as to try to look pretty, young and neat and go out and talk so soft and religious that strangers think almost, that they are going to heaven alive. But this kind of religion and politics won't stand the test.

Warner Hill has been appointed state railroad commission to succeed Judge Atkinson.

Rev. D. S. McCurry of Hall county, aged seventy-two, has averaged 240 sermons a year for 40 years, and to reach these appointments has traveled 50,000 miles. He has concluded 911 funeral services, baptized 4,017 persons and married 621 couples.

Hall county's city court will soon be a thing of the past.

C. J. Matthews of Cobb raised 12 turpins weighing 8 1/2 pounds.

The Australian ballot bill has passed the house of representatives.

The president has returned from his bear hunt to the White house.

Gainesville is going to have a white primary Dec. 4 for city officials.

Quite likely Gainesville will have a broom factory in the near future.

A bill has been introduced in the senate to pay all solicitor generals in the state \$2,500 a year each.

Geo. Sheppard committed suicide near Macon the other day because the girl he loved wedded another.

Sergt. James Sapp, of the Salvation Army, will be a member of the next Kansas State Senate. This is Sergt. Senator Sapp's promise: "I am not going to throw on any dog and spend a lot of money. I will put up at the Salvation Army soup house."

It doesn't pay for defendants to appeal to the city council of Gainesville after being fined by the mayor. The other day Joe Storer who was fined \$50 and costs for selling liquor appealed his case, and the council raised the amount to \$75. And Ben Bolding's fine was raised from \$5 to \$10. This shows that it don't pay to trouble officials in cases like these.

The Signal claims to be able to do either artistic or rag tail job printing, and is speaking of doing colored printing. This we suppose will begin as soon as a new crop of "pokeberries" come in. The republican job work it did during the campaign must have been of the rag tail variety judging from the poor effect it had, especially that job set up on Sunday.

If the bill introduced by Representative J. T. Peyton, of Habersham, becomes a law the superior court judges will be required to travel over a circuit and not hold court regularly in one place or district, as at present. He thinks some of the judges have too many "cronies" among the local lawyers and that the best interests of the people will be subserved by changing them about.

Charlton Herald: We frequently hear people remark that all the Confederate soldiers will soon be dead. Notwithstanding this fact the pension rolls of the state grow larger each year. There is evidently something radically wrong some where. We are strictly in favor of assisting the old soldiers who really need assistance, but, are opposed to pensioning men who are worth more than many of our taxpayers, as is now being done.

Little Billie Signal has put on his slightly colored democratic glasses and claims to be running his paper in the interest of this party. Show us where he has ever said one word against the administration of a republican either public or private or said anything in the interest of the democratic party. But on the other hand he is billying or nosing into some democrats business every week and because it has no more effect than pouring water on a duck's back it makes him mad.

Ice is free under the schedules of the Lingly tariff, but mineral water is dutiable. The price men who framed the law possibly never once imagined that mineral waters might be frozen into solid block, imported free as ice, and then be melted, bottled and sold as mineral waters. But some shrewd dealers in New York knew that process was possible, and for a long time they have been importing ice and selling mineral water from it. The custom officials at New York are now trying to get a ruling that will stop the practice. —EX.

Corn has been bringing 60 cents here this week in cash.

Bishop Candler upholds the negro institute at Augusta.

Prof. Walker White of Monroe county, has been appointed assistant state school commissioner.

If the Australian ballot bill passes without an amendment it will do away with white primaries.

Customers are still receiving bargains at M. G. Head's store, and those who have not visited it yet will find it to their interest to do so.

Mr. Robt. London sends us a couple of the largest turpins we have seen this year. They weigh fourteen pounds. Mr. London is one of Lumpkins most enterprising farmers and raises everything that is produced on a farm in this country. The result is he "lives at home and boards at the same place," and always has plenty of money.

This is Thanksgiving Day. Nearly all the stores are closed and the merchants and clerks are eating their turkey. We have no turkey but killed a pig and are eating sop, liver, hogs head and fifty bread, feeling very thankful. It has suddenly changed from beautiful warm weather to winter and some snow is falling now. Today the horse swappers convention met here to be in session three days, and they are even coming in from Banks county.

Charles Franklin, now an old man, is in Atlanta asking the state to pay him for serving in the penitentiary for another man's crime. He was charged with murdering Mitt Bryant which crime was committed by Fred Wright. When the negro was dying in August about a year ago he said he swore it on Franklin because he was mad at him and that he committed the murder himself. Then after serving 21 years Franklin was pardoned. The other witnesses died while testifying.

The 36th annual session of the North Georgia Conference closed in Atlanta last Tuesday after a very busy session to meet again next year in Griffin. The assessments made upon the various districts for missionary purposes for 1903 amount to \$39,000, \$24,000 for foreign missions, and the remainder for home missions. This district, \$1,700 for foreign and \$1,098 for home. The number of local preachers is 288; number of members 90,280. Number of Sunday schools 743; number of Sunday school scholars 50,647. Rev. E. C. Marks is appointed to Dahlonega and Rev. Mr. Pierce goes to Canton. The Lumpkin session is supplied by Rev. N. A. White.

Grip's

Grim Grasp Caused Heart Disease.

Could Not Lie On Left Side.

Dr. Miles' Heart Cure and Nerve Cure Me.

Mrs. H. R. Joke, formerly of Birmingham, Ala., writes from Eldridge, the same state, as follows:

"It is with the greatest pleasure that I recommend Dr. Miles' Nerve and Heart Cure. I only wish that I could tell every sufferer how much good they have done me. Last winter I had a severe attack of La Grippe, which left my heart in a very bad condition. I could not lie down for the smothering spells that would almost overcome me and the feeling of oppression around my heart. I had not been so that I could lie on my side for a long time. I got your Heart Cure and took three bottles. I have no trouble now with my heart and can lie on my left side as well as my right. Formerly I had suffered for years with nervous prostration. I had tried so many remedies that I had got clear out of heart of getting anything that would help me. The nerve of my heart were so affected that sometimes it would lose beats so it would seem to stop altogether. It was on the advice of a lady friend that I tried your Restorative Nerve. I felt better after the first few doses and two bottles of Nerve and one of Heart Cure made me feel like a new person. My heart is all right and my nervousness is all gone. I never fail to recommend it to others afflicted as I was."

All druggists sell and guarantee first bottle Dr. Miles' Restorative. Send for free book Dr. Miles' Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

CASH

WILL BUY at J. T. MILLER'S

THE NUGGET.

DALLHOGEA, NOV. 27, 1902

Mr. W. P. Price, Jr., visited Carolina last week.

Mr. Thomas Ray has been down on a visit to Atlanta this week.

Some needed improvement is being made on the street running by Dr. Heads.

The scarlet fever patients are all well and we trust that no more cases will appear.

The laying of the track on the Gainesville & Dahlonega Electric Railway will begin early in the spring.

Mr. Will Hartman went down to Atlanta last week to have his eyes examined which were growing weak.

Mr. Clark Ryan has been very sick several days with the grip, but is getting better now and we trust will recover.

Dr. N. E. Howard filled the pulpit at the Methodist church last Sunday and Sunday night, being the only services in town.

The last dynamo and all the machinery for the Chestate Electric plant is all on the grounds and being placed in position ready for working order as fast as possible.

Mrs. Charlie Woods, while crossing a plank over the branch near her house last Sunday, fell and injured herself internally. She was unable to get up and when found was unconscious.

Rev. Robert McCallister, who left Union county 20 years ago for Oklahoma, is back on a two month's visit for the first time since leaving. He is accompanied by Mr. Tomlinson, a neighbor of Mr. McCallister, being his first visit to Georgia.

Last Friday a cave fell and came near catching Mr. W. C. Thomas down at the Ivy mine, striking his left leg without any damage except scaring him. "Gov's" favorite song is, "All them good times are past and gone, baby don't cry for me." And there is not a bit of doubt in our mind but what he thought of this old song.

If the legislature passes the bill now before it to tax liquor dealers \$50 for shipping it into dry counties, and Marshal Grizzle and Collector Crockett continue their successful destruction of illicit distilleries it will cut the Christmas liquor so short that many will be unable to celebrate the birth of Christ the old way—get drunk—unless they use Peruna.

We had the pleasure of meeting Hon. F. M. Merriott, a leading attorney of Delaware, O., last Saturday, who was accompanied by Mr. R. L. McCabe of Dayton, O., who is interested in the Crown Mountain Gold Mine and Gorge water power. Mr. Merriott is largely interested in the Consolidated Mining Co., and is down on special business, what for exactly we did not learn.

On the 4th of next month we will have been running the Nugget five years. We have been liberally patronized by friends both at home and abroad, for which we feel very grateful and trust that they will continue in the future as they have in the past. Quite a number of subscriptions expire on that day and we hope that each and every one will renew at once so as to not miss a single copy of the paper.

Surely some of the ladies think that this is leap year, judging from the letters they have been writing recently. Week before last one was found from a married woman, and last week a little child picked one up on the public square, written by a certain girl addressed to a young merchant, which read as follows: "Mr., you can come to house. Mrs. A. don't care and Mr. A. will be gone. Please come. We can go up stairs and talk. You will be sorry if you don't come. Your best friend."

When you need any job work let us hear from you.

An interesting railroad article will be found on the first page written by Dr. N. F. Howard.

The Nugget uses no varnish in its locals, but calls things by their proper names so all may understand.

Miss Dwellie of Greenwood, S. C., is here looking after her sick brother, who has been attending college.

You will find the tax collectors "last round" in this issue. He closes his book on the 20th of December.

Prof. J. W. Boyd attended the recent Methodist Conference in Atlanta and was highly pleased with the trip.

The NUGGETS for town and country subscribers are delivered at the post office here now at 12 o'clock on Thursday.

Some of the cows here are suffering from hollow tails and others from hollow stomachs. Either produces death sometimes.

Col. Price made a Peruna speech down at the church the other night. That is, against the use of it as a substitute for liquor.

We deeply sympathize with Mr. and Mrs. J. E. McGee in the loss of their little girl on Thursday afternoon of pneumonia, after a brief illness of only four days.

On last Saturday while several parties were out hunting in the western portion of this county, a son of Jacob Sam was accidentally shot and killed by John Corn, a son of Ed Corn.

A certain fellow recently used half a dozen bottles of Peruna in two days and the result was it liked to have burned out the lining of his stomach, causing a physician to have to be called in.

A fellow came to town the other day with a load of wood and a possum. The price of the wood was 50 cents and the possum 25. It stood upon the wood and it was pushed up some by the heavy pressure. His feet is swollen out of all shape, causing much pain.

A few days ago Mrs. Robert Patten made a jar of potash soap and put it away in the cellar. It looked nice and white. In a few days it was gone and it is supposed that some one carried it off, who believed it to be lard.

Enquiry has been made to know if we were printing the Chestate Baptist Minutes. No. We were under the impression that the clerk was writing them out for the different churches, but we have learned recently that they are being printed at the Signal artistic (?) job office.

Sheriff Davis visited Dawson county a few nights ago and arrested Bishop Anderson, another one of the Mill Creek church disturbers, which occurred in this county some time ago. Bishop was fixing to go to Kansas but the appearance of the sheriff knocked him out of the trip for a while.

We understand that a movement is on foot to have the street by Mr. H. D. Gurleys extended through the old Joe Parker lot, now belonging to the Consolidated, but a party interested says that it will take a right nice little sum of money to get the ground. So the town is in no condition to pay big prices for property now and we guess it will be some time before this becomes a street.

Ida Postell got so full of liquor last Thursday night that she went into Dr. Jones' drug store and was unable to get out without the assistance of the marshal, who carried her to the calaboose where she was given a bed and the door left open so she could go out at will when able to walk. The woman is to be pitied, but this rarely ever occurs, even by other women who like liquor just as well as Ida and get behind the door and gnaw their drink. The same night some church members were under the influence of liquor. They didn't get as far along as this unfortunate woman but the act was worse in the eyes of the Lord than hers.

Mrs. Webb is prepared to do sewing of all kinds.

Don't forget to call or send when you fail to get your Nugget.

Hon. G. D. Bruce came home and spent last Saturday in Dahlonega.

Mr. Jaquish and lady of Aurora, were in the city a short while last Sunday.

Mr. Lilly and wife of Dawson county, were up Saturday and Sunday on a visit to his sons here.

Mr. Tregent of Chicago, father of Mr. Tregent, engaged in mining down at the Barlow, came in Saturday.

Cadet Will Thomas was called home last week to attend the funeral of his little thirteen-months-old sister.

There's been a few cases of typhoid fever in Dahlonega but all have recovered except one student, brother of Prof. Barnes, who is very sick.

At John Hatfield's you will find a lot of fresh candies, both stick and fancy. Nuts, crackers etc. His fire works will be on hand in due time for Christmas.

Editor J. B. Thomas of the Dawsonville Advertiser, was in the city a few hours last Monday, who reported Dawsonville very quiet and distressingly sober.

Recently Prof. Gaillard lost a bed and some quilts by fire. He was insured in a company which Prof. Stewart represents and in less than five days got pay for his loss.

Dr. N. F. Howard of this place, was 81 years of age last Monday. The Doctor is blind but enjoys very good health and preaches occasionally. He has a splendid collection and often prepares interesting articles for the press—that is, he dictates them.

Down at the Singleton mill last week Mr. Ross McDonald stepped on an old plank having a nail in it, which passed clear through his foot except the skin on top, and it was pushed up some by the heavy pressure. His foot is swollen out of all shape, causing much pain.

The entertainment given the Sigma Nu Fraternity at the residence of Col. W. A. Charters on Friday evening last, was a most delightful occasion and one that will long be remembered by each and every one present, for the hostess, Mrs. Charters, did everything in her power to make all feel pleasant and happy.

On Thursday afternoon a negro girl, claiming to be the wife of Will Cannon, who says they are from Habersham county, came running after Will, who works for Mr. H. D. Gurley, snubbing and crying, stating that she had been outraged by Ben Elrod, a negro man well known here, who was then at the house in an intoxicated condition. They live in a little house just across the ridge from the school building, and it was not long until Cannon was at the place loaded with a big hickory stick. Ben was lying on the bed. The door was closed and fastened by the infuriated husband. Then he let in on the drunken negro in an unmerciful manner, continuing until neighbors came and begged him not to kill Ben, who begged too, for he thought the time had come for his courting expeditions to come to a close. Ben was not long in getting away when an opportunity was offered. The murderer was reported to the sheriff who, together with Mr. Geo. Walker, began a search for the fleeing negro. At the same time Henry Underwood and Alvonia Coffey, two colored men, also began a search and it was not long until they found him at one of his "roosting" places and turned him over to the sheriff. He placed Ben in jail and kept him until the afternoon of the next day when he was released after Cannon and his wife refused to swear out any warrant. Then on Sunday after Ben had skipped off the woman swore out a warrant and placed it in Sheriff Davis' hands.

Onions brought \$1.00 per bushel yesterday, cash.

Will Ward, charged with misdemeanor, has made bond and the jail is empty one more time.

A fine line of dry goods, notions and outtings just received at E. E. Orisons, all being offered very cheap.

Miss Kendall of Kentucky, after visiting her sister here, Mrs. J. W. Boyd, a few days, has returned home.

A four horse wagon load of ladies took a straw ride up to Porter Springs last Monday, accompanied by three young men.

For RENT—Store house and dwelling on public square.

Apply to

BANK OF DALLHOGEA.

Some ten or fifteen cadets went down to Gainesville yesterday to attend a reception given by the Senior class of the Brenan College.

Mr. M. J. Williams has been engaged in taking stock this week but is now ready for the trade with a full line of all kinds of goods.

The mayor says that the Sunday shaving at barber shops in Dahlonega must be stopped else the money in the treasury will be increased.

If the day is favorable the all-day singing out at Oak Grove church next Sunday will be largely attended. Those fond of good singing should go out.

Those who have been sending the Nugget to their friends should call and see if their times have expired and renew, else they will be stricken from the list.

We had a day and nights rain this week raising the river about five feet, being the most water that has fallen at one rain in twelve months or more.

The cylinder of our press has "got out of whack" this week causing the paper to print badly. But we will have things in shape by next week and the Nugget will come out looking as clear and bright as a new silver dollar.

Your attention is called to a ticket for councilmen to be found elsewhere in this issue. They are men who are well known to you, men of property and if chosen will no doubt give satisfaction to every reasonable thinking person in Dahlonega.

The committee appointed to visit the N. G. A. College from the legislature is composed of the following gentlemen: Hons. G. H. Bell of Emanuel, Johnson of Baker, Hixon of Sampter, Steed of Carroll, Shackelford of Clarke, Bruce of Lumpkin, Welborn of Union, Kendrex and Owen.

Remember our shoes are 1st quality and price the lowest that cash can demand. We have some dolls, toys, books and Xmas presents for grown folks on the road now, so they will be here before Christmas. We will pay cash for fourteen good mare mules.

B. R. MEADES & SONS.

Mr. Jackson Coldwell, a son of Rev. D. W. Coldwell of this county, was seriously injured at Ducktown a few days ago by a cave, and for a while it was thought that he would not recover but his father returned this week and thinks maybe he will get well, although he is mashed through the hips and in a bad fix.

The contest for a speaker to represent the N. G. A. College in the next state oratorical contest, took place at the college last Monday evening and the following were the speakers: Messrs. Gautier, R. Byers, John Byers, Broach and Gortatawsky. All the speakers did well and were listened to with much interest. Mr. Gautier had been sick and was tired to the college by his friends and when almost half through broke down from exhaustion. The gentleman will be given a chance to conclude his speech next week, before any decision is rendered.

Mining Notes.

Carpenter Will Ricketts expects to begin working on the new dredge boat next Monday to be put in the Chestate river by Messrs. Ingersoll, Crisson and Kennum.

The operations on the Standard Gold Mining Co's property, under the direction of Mr. Rex, still continues and is showing up well. Fifteen stamps of the Singleton mill are kept running pretty regular.

Johnson and Riley, who are mining down on the Standard property, report that their mine is improving. They are two of the most successful miners we have, and have unearthed several hundred pennyweights of gold this year.

Nothing has been done at the coal mine on Black Mountain since the land lines have been located and the coal found to be on different property to which the parties interested had authority to prospect.

Messrs. Rusk and Disney of Chicago, members of the company making preparations to work the Briar Patch property, arrived last week, accompanied by some two or three other gentlemen, who have been looking over the property. Hands were put to work cutting the reservoir.

Last week but when work will begin on the ditch is not known by us, maybe not before the first of the year.

The heaviest thing in the way of machinery that has ever been moved over these mountains is the steam shovel that was shipped here for the Coosa Creek gold mines in Union county and is now being moved to that place with cattle and mules. They are on their way with a small piece of it, which only weighs fourteen tons. They have eight yoke of oxen and six mules to it, and it is reported that they have broken through every bridge across every ditch, branch and creek as far as they have gone. There is still another piece here to be moved yet, which weighs two tons more than this one—Mineral Bluff Gazette.

The work of building the dam at the Gorge moves right along, and up to this week they have had unusually beautiful weather for the business. One side of the foundation of the structure is in and built up quite a number of feet; out of danger of high water, and this week the laying of the foundation on the far side commenced, and if not prevented by rain, in a short while it will be enough not to be moved by high water, should any come. The manager is very sanguine over the progress he is making and is pushing the work as fast as possible so as to get it completed. When this is accomplished there will be no trouble in keeping the Crown Mountain plant running on full time at all seasons of the year, Crown Mountain is a good gold mine and we are anxious to see it in operation again. All those on the ground having an interest in the Crown Mountain mine feel confident of success when sufficient power is had to operate the plant and are using their utmost endeavors to get the Gorge dam completed at as early day as possible.

A few days ago Cadet Stovall decided to take a bath at his boarding house. Just as he had finished disrobing he heard some one coming up the steps. Thinking that it was the landlady and not having time to fasten the door he jumped into a large trunk and let the lid down. In a few minutes some one was in the room sweeping and cleaning up. And there he was almost suffocating. Not being able to stand it any longer he raised the lid so as to let in a little fresh air. The negro girl got a glimpse of him and out of the room and down the stairs she went yelling, "Dar's a man in de trunk! Dar's a man in de trunk!" Causing some confusion until an explanation could be made.

Temperance Meeting.

An interesting programme has been arranged for a Temperance meeting at the Baptist church Sunday night, Nov. 30, at 7 o'clock, 1902. You are cordially invited. Music conducted by Miss Jessie Woods.

Mrs. D. J. BLACKWELL,
J. H. BAKER,
J. V. HARRISON,
Committee.

For Councilmen.

Mr. Editor:

As there is one councilman to elect from each ward this year, and while we are looking around, I will suggest the following: 1st ward, E. W. Strickland; 2nd ward, George Moore; 3rd ward, W. P. Price, Jr.

These men represent a lot of property and the different occupations of our city and will be endorsed by all our citizens.

VOYER.

RHEUMATISM CURED AT LAST.

Good News For All Who Suffer With Rheumatism Free.

To all who suffer with Rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on Rheumatism ever published. No matter what your form of Rheumatism is, whether acute, chronic, muscular, inflammatory, deformed, sciatic, neuralgia, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "cure cures" you have tried—I want you to write to me and let me tell you how mother was cured. I am neither a Doctor nor a Professor—simply a plain man of business—but I have a CURE for Rheumatism, and I want to tell everyone who suffers with Rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however apparently beyond the reach of cure, will write to me this day and I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are treated and discouraged with "doctors" and to those who have been cast aside as "incurable." All you have thought about Rheumatism for so long. Let us tell you our experience. Surely, if you have Rheumatism, or have a suffering friend, it will pay you to investigate my offer, anyway, and prove for yourself these claims I make. Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have friends suffering with Rheumatism no matter where located, send me their address, and I will mail them a copy. My address is VICTOR RAYBOLT, Bloomfield, Ind.

Slaughter Sale OF Clothing.

My entire stock of clothing, consisting of Men's, Youths and Boys 2 piece suits at absolute cost for the next 60 days. This is no catch ad. I am going out of the clothing business and if you are looking for bargains, the lowest you have ever seen, you will find them at

H. D. GURLEYS.

Call at once.

All Styles OF Shoes & Hats

Reduced prices from 10 to 20 per cent. Dress goods, notions and gents furnishings, cheaper by 10 per cent than any house in the city. A few nickel Rochester lamps complete at \$1.50 to \$1.75 at H. D. GURLEYS.

TAKE NOTICE.

All persons indebted to the undersigned will find their notes and accounts in the hands of Wm. J. Worley, Esq., for collection. So please come forward and settle the same, as I am needing the money.

RUTS

The walking sick, what a crowd of them there are: Persons who are thin and weak but not sick enough to go to bed.
 "Chronic cases" that's what the doctors call them, which in common English means—long sickness.

To stop the continued loss of flesh they need Scott's Emulsion. For the feeling of weakness they need Scott's Emulsion.

It makes new flesh and gives new life to the weak system.

Scott's Emulsion gets thin and weak persons out of the rut. It makes new, rich blood, strengthens the nerves, and gives appetite for ordinary food.

Scott's Emulsion can be taken as long as sickness lasts and do good all the time.

There's new strength and flesh in every dose.

We will be glad to send you a few doses free.

BEEF PRODUCTION IN STATE OF GEORGIA

Extract From Excellent Article
 Advocating Same.

FARMER SHOULD SUCCEED WELL
 Less Drudgery in Raising Stock Than
 in Clanking in a Bank or Selling
 Groceries and Dry Goods, and the
 Profits are Sure.

We wish to give here an extract from an article on beef production in Georgia by Professor C. L. Willoughby, of the Georgia Experiment Station, which appears in the November number of the Southern Farm Magazine. "I am convinced that the average white farmer in Georgia has plenty of intelligence to succeed with stock, if he will turn his mind in that direction. One great difficulty is not securing good help, for I must admit the negro shows very little aptitude in this line. He does well enough raising the mule, because neither of them runs away to hurt the owner, but the blacks who show ability in raising cattle are so few and far between that it is impossible to depend upon them without close personal supervision. The next plus is for the farmer to take hold of this matter himself. There is less drudgery in it than clanking in a bank or dealing out groceries and calves, and the profits are as certain as in cotton growing. Banks and merchants will furnish money and supplies just as readily with cattle for security as the same number of acres in cotton. The question of men for the work, therefore, resolves itself into a question of whether the Georgia farmer will see his opportunity and make the effort to take advantage of it."

Ga. Department of Agriculture.

SEVENTH LETTER ON AGRICULTURAL CHEMISTRY.

Continuing the Letter of State Chemist to Georgia Farmers on Agricultural Chemistry—Description of Fertilizer Materials Continued.
 Cotton seed meal, blood, tankage, etc., which I have described to you in the last letter, are known as "organic" sources of ammonia, or rather of nitrogen. Habit is so strong, you see, it is hard to get rid of the use of these word ammonia. Nitrogen is much the better term for our use. It is the organic sources of nitrogen we also have what are known as the "inorganic" sources. I have explained in a previous letter why the measuring of these two sources, but that you may have forgotten, I will stop a moment to say that an inorganic substance may be either vegetable or animal, thus, meat and bone, pieces of meat or skin are organic substances. An inorganic substance is the opposite of these, and is mineral in its nature, a piece of rock or of iron is inorganic. Chief inorganic source of nitrogen, then, is nitrate of soda, also commonly called "Chili Saltpetre." Saltpetre because it has many of the properties of real saltpetre, which is nitrate of potash and Chili because it is imported from Chili in South America.

Nitrate of potash or true saltpetre is a very valuable fertilizing compound, yielding both nitrogen and potash to the plant, but it is much too expensive to buy in this form; it is, therefore, better, or, rather, cheaper to buy nitrate of soda and nitrate of potash separately, and then mix them together, when we will accomplish practically the same results from a fertilizing standpoint, and for a smaller outlay of money. Now if we have the same elements in form of nitrate of potash. Nitrate of soda is such an important salt for fertilize purposes that I will go into some little detail about it.

The entire supply at present comes from the western coast of Chili—exists in a narrow strip of land running along north and south for about 200 miles, at an average distance of about 14 miles from the ocean. The country where it is found is a desert, it never rains here and the whole region is bare of vegetation and destitute of water. The nitrate rock is called "caliche" (pronounced Cal-she-ey) and the best quality has the following composition:

Sodium nitrate, 56 per cent, sodium chloride 26 per cent, sodium sulphate 6 per cent, anhydrous sulphate 3 per cent, insoluble matter 14 per cent, sodium iodate, sodium nitrite, magnesium chloride, magnesium nitrate, potassium chloride 1 per cent making the whole.

The average quality of "caliche" contains from 30 to 40 per cent of sodium nitrate, and the poorest quality worked ranges from 12 to 20 per cent sodium nitrate. The "caliche" occurs from 5 to 10 feet below the surface of the ground, and the vein or stratum varies from a foot and a half to twelve feet in thickness.

The process of extracting and separating the valuable nitrate of soda from the rest of the "caliche" is done by means of water in which the nitrate of soda dissolves, and from which it is crystallized. A description of the process would be tedious. Suffice it to say that a costly plant is required for the purpose, and that the work is so well done that the product when finished contains about 95 per cent nitrate of soda, which is equivalent to 16.66 per cent of nitrogen, or

16 per cent of nitrogen. An enormous and annually increasing amount is shipped every year. This amount exported every year to Europe and America is about one million tons.

Method of Use.
 The material has a great number of uses besides its use as a fertilizer. It is in the manufacture of nitrate of potash, which is needed to make gun powder and fireworks. It is also used to make nitric acid, is an essential in the manufacture of sulphuric acid, upon which the whole superphosphate or acid phosphate industry depends, besides a great many other manufacturing processes. Its great importance as a fertilizer depends upon its high percentage of nitrogen and its complete solubility in water—free being immediately available as plant food, the nitrogen in it being already in the form of a nitrate, the form in which plants prefer to take most of their nitrogen. The nitrate of soda being readily and freely soluble in water, is ready for appropriation as plant food as soon as it is put into the soil. Hence it is evident that the best way to use it is by application as a top dressing immediately before or after a rain, usually in the spring, when the plants are up and need a good start to develop growth of stalk and foliage. Used in this way, the results are very sure and very striking.

Sulphate of Ammonia.
 One other important inorganic source of nitrogen is the well known sulphate of ammonia. It is produced chiefly as a by-product in the manufacture of illuminating gas from coal; the gas itself contains a small percentage of nitrogen, when subjected to dry distillation in retorts, the nitrogen is driven off in the form of ammonia gas, and is finally absorbed in sulphuric acid, from which it is crystallized as sulphate of ammonia. This product contains about 20.4 per cent of nitrogen, when purified, but if sold unpurified as brown sulphate of ammonia, it may not contain more than 18 per cent of nitrogen. Sulphate of ammonia is fairly soluble in water, and has this advantage over nitrate of soda, that it does not leach out of the soil so readily as nitrate of soda does, and may therefore be applied with other fertilizers in the fall to fall crops without fear of serious loss through leaching during the fall and winter. I have not mentioned all of the various kinds of nitrogenous fertilizer materials, but have sketched merely all of the commercial fertilizers sold in the State of Georgia are made. The next great class of fertilizer material we discuss will be the "phosphates."

Come South Young Farmer.

We cannot imagine why our people should be so very anxious to go West, live in sod-houses, endure cold from 10 to 40 degrees below zero, when land is so cheap in the south, where the winters are mild, the growing seasons long and water and lumber so cheap, wrote a northern man some years ago.

"It costs more than to build a house in the extreme west than to buy a farm down south and an improvement at one at that. Then, again, an acre of wheat on southern farms brings the owner a better price than the wheat grown west, and the early vegetables are sure of a good price in the market, and you can raise cotton for a good clean money crop," he added.

To all of this we readily agree, at the steam of imagination from New York city to the far west continues unabated and the sod houses are lived in, the Arctic cold endured and the southern farms continue cheap and the southern people run to town to school their children and the tens of thousands of acres of barren soil in the south tells us there is something the matter.

Now what is it?
 Is it the negro that keeps the northern farmers away from us? Then the remedy lies in coming to the south in such numbers and with enough industry to make these cheap lands pay a handsome profit. There is no other remedy that occurs to our mind, and the southern legislators, state and federal, should give strict attention to this crying need of all the southern country. Atlanta Journal.

J. J. Overton, of Los Angeles, Cal., who is 105 years old, is believed to be the oldest United States soldier. He served in the Black Hawk War, the Mexican War, and the Civil War. He witnessed three miles in the Grand Army parade in Los Angeles.

The fellow whose courtship I live him to bankruptcy has no business to ask why marriage is a failure.

Mustang

 A toad under a harrow
 Cures more than the faithful horse that is tortured with Spavins, Swinney, Harness Sores, Sprains, etc. Most horse owners know this and apply the kind of sympathy that heals, known far and wide as

Mexican Mustang Liniment.
 Never fails—no even in the most aggravated cases. Cures caked joints, cures quicker than any known remedy. Hardly a disease peculiar to muscle, skin or joints that cannot be cured by it.

THE NULITE VACUUM GAS LAMPS
 For Homes, Stores and Factories.
 The Nulite Vacuum Gas Lamp is the most perfect and reliable of all lamps. It burns clean, bright, and without smoke or odor. It is the only lamp that can be used in any room without the necessity of ventilation. It is the only lamp that can be used in any room without the necessity of ventilation. It is the only lamp that can be used in any room without the necessity of ventilation.
